**31 FIRMS AND  
156 INDIVIDUALS  
ARE INDICTED**

**WORK OF GOVERNMENT AT CHICAGO IS FIRST GUN IN CLEANUP**

**RINGS HAVE BEEN FLOODING  
UNITED STATES WITH IL-  
LICIT LIQUOR**

Chicago, Feb. 12.—(U.P.)—The federal government has launched a nationwide drive to smash the illicit alcohol rings which have been flooding the United States with liquor, it was learned today from a reliable source. The indictment here of 31 firms and 156 individuals Monday was the first gun in the national cleanup, according to semi-official reports.

Prohibition Commissioner James A. Doran, who left Chicago this afternoon for Washington after an inspection trip throughout the middlewest, has refused to confirm or deny that such a smashing drive is under way. He evaded newspaper men who wished to question him about the drive.

The United Press informant said other wholesale indictments, such as the ones this week, may be expected any time from other prohibition administration districts of the country.

The offensive has been carried on largely by agents working under the direction of Washington instead of under district administrators, where the information might leak out.

Special agents, unknown to regular operatives, have carried on the investigations, being drawn from widely separated parts of the country and shifted frequently.

The drive here was under the direction of Alexander Jamie, special agent, whose men came from both coasts.

### YEAST INDICTMENTS ARE VERY IMPORTANT

Chicago, Feb. 12.—(U.P.)—Reports that true bills, similar to the indictments returned against the Fleischmann Yeast company and the Corn Products Refining company, would be directed at the manufacturers of bottles, caps, extracts, malts, hops and sugar, were denied by Commissioner of Prohibition James M. Doran today.

Doran, who characterized "the yeast indictments as very important," said he intimated nothing which led to the circulation of the reports from Milwaukee.

United States Attorney Johnson made plans yesterday to arrest the defendants—31 concerns and 157 persons have been indicted for their alleged connection with a huge alcohol diversion ring. Four of his assistants will start for New York, Cleveland, St. Louis and Los Angeles this week bearing warrants, it was announced.

Doran declined to answer questions as to whether E. C. Yellowley, Chicago administrator, would be dismissed as rumored.

### TO URGE INSANITY PLEA IN CASE OF ROBERT LANDIS

Spokane, Wash., Feb. 12.—(U.P.)—With the broken sobs of Mrs. R. E. Landis ringing in their ears, the 13 jurymen hearing the trial of 17-year-old Robert Landis for the murder of Detective Roy Fordyce, faced a day of relaxation today, Lincoln's birthday.

Efforts to brush away the grim spectre of the noose from over the head of the Minneapolis boy were being pushed today by Defense Attorneys E. J. Cannon and F. J. McKevitt, who planned a long conference in which plans for the remainder of the defense presentation will be mapped out.

Further defense measures were as uncertain as the flipping of a coin. The only thing which appeared certain was the advancement of the insanity plea with telling force.

In all probability other members of the Landis family, R. E. Landis, the boy's father; Carl, his brother, and Ruth, his sister, will testify to the strange mental afflictions which suddenly affected the youth early in 1928.

Testimony of the defendant himself, probably will be withheld until the last.

The state finished its case Tuesday

### POLICE CHIEF OF DULUTH CALLED BEFORE COUNCIL

Duluth, Minn., Feb. 12.—(U.P.)—Because he refused to admit a group of unemployed men and women seeking relief from the Duluth city council Police Chief E. H. Barber will have to explain his conduct today to the city council.

Members of the safety commission said they had instructed Barber to admit the group. When the group, angered by the police chief's refusal to admit them, stormed the city hall, three men and two women were arrested by the chief.

Safety Commissioner James E. Foubister said he might ask the resignation of the police chief if he could not explain why he had barred the group from entry.

## Opposition to Hughes Confirmation Continues

### MILL CITY GROCER MEETS SITUATION, SHOOTS BANDIT DEAD

Minneapolis, Feb. 12.—(U.P.)—J. M. Baker was shining up the pet revolver he had proudly owned for several years when a bandit entered his grocery store last night.

At a command from behind to "stick 'em up" the grocer calmly turned around and fired five times. Two of the bullets found their mark and the bandit dropped dead. Baker was slightly wounded by one of the unidentified robber's four shots.

### "BIG BERTHA" BOMB ROARS INTO LAUNDRY

**TWO PERSONS INJURED IN THE  
WRECKAGE OF BLAST IN  
CHICAGO**

**INDUSTRIAL AND COMMERCIAL  
LEADERS HOLD COUN-  
CIL OF WAR**

By RAY BLACK  
(United Press Staff Correspondent)  
Chicago, Feb. 12.—The roar of a "Big Bertha" bomb that blew a north side laundry into wreckage and injured two persons was the ominous echo on which a tall, gray-eyed engineer began his battle today to rid Chicago of gang menace.

With a secret group of industrial and commercial leaders as his council of war and an apparently unlimited reserve of gold, Robert Isham Randolph, who learned what fighting means with the American army overseas, mapped out his campaign with the coolness of a world war general.

Most of the near north side was rocked by last night's explosion. Residents were hurled from their beds in the district surrounding the two-story building housing the Northwestern Laundry Company, and ran to the streets in terror.

Patients at the Chicago general hospital were terrorized by the roar, followed by tremors and falling lights.

Police first announced the blast was a boiler explosion but Fire Battalion Chief Frank Rabant later said a huge bomb was responsible.

Randolph, the generalissimo of big business' war against the racketeers, was expected to call his staff together at once to plan a counter attack. More than 2,000 arrests already have been made.

Gangland murders, bombings, labor sluggings and the rest of the gamut of lawlessness are nothing new in the life of Robert Isham Randolph.

He was born in Chicago. He has seen, heard of and read about gang crime as long as he can remember.

So when Chicago needed an iron man to meet a desperate situation, Randolph, the fighting engineer and the head of the Association of Commerce, was the unanimous choice.

"What can be done, we'll do," is his battle cry, spoken, however, in calm, deliberate words.

"I don't know yet what is necessary," he said. "We have an emergency situation and emergency measures must be taken. They will be."

The glint in his gray eyes, the set of his lips, the click of teeth as his square jaw seemed to push out the words, gave intensity to his promise.

### POLICE THWART DESTRUCTIVE PLANS OF COMMUNISTS

Frankfurt, Germany, Feb. 12.—(U.P.)—An attempt to destroy machinery in the Opel-General Motors automobile plant at Russelsheim was halted today by police who repulsed a mob of 700 communists who invaded the plant.

The Communists, who declared a strike at the plant because of the dismissal of two workers, had been threatening the works all morning. A strong police guard was reinforced by troops.

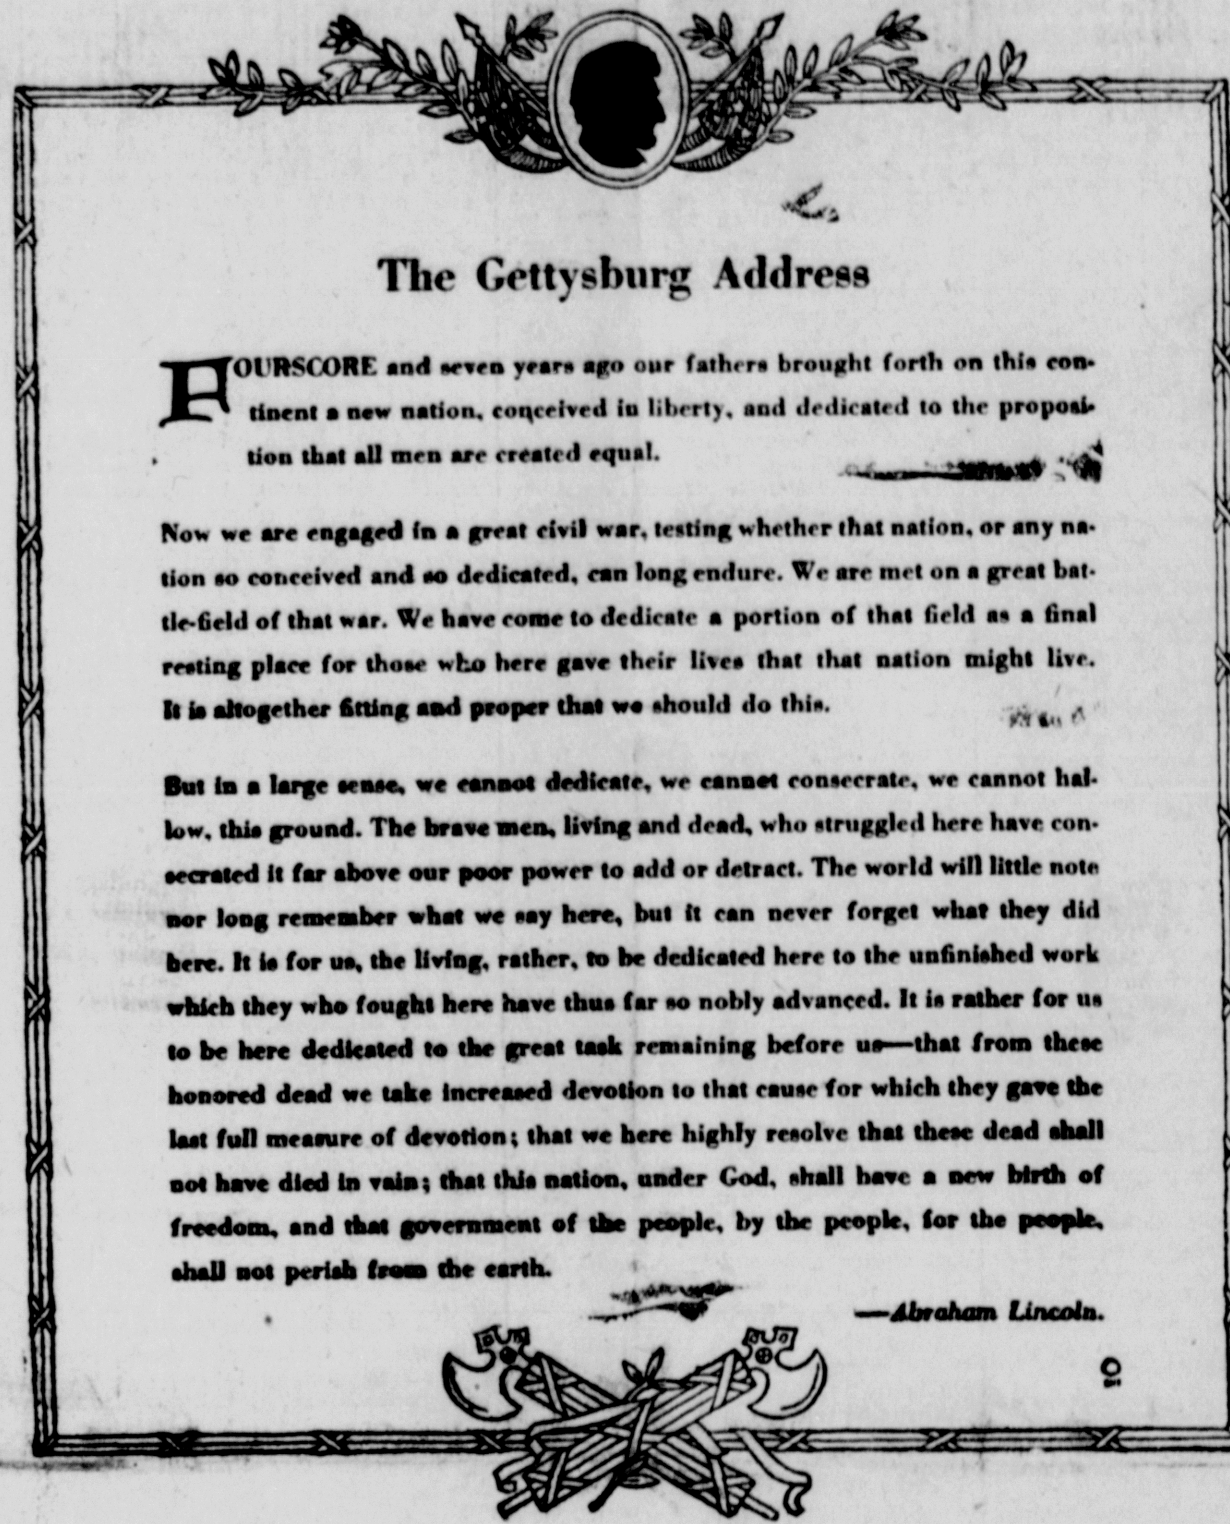

The Opel works, in which General Motors obtained a controlling interest last year, is the largest automobile plant in Germany.

### IMPORTANT MAIL INTERRUPTS FISHING OF PRESIDENT HOOVER

Long Key, Fla., Feb. 12.—(U.P.)—President Hoover's fishing vacation was temporarily interrupted today by a pouch of important mail from Washington. He called off his fishing plans for the forenoon and remained on the Saunterer to work, although some of his guests went fishing.

The president's attaches declined to say what national matters had been referred to Mr. Hoover.

Late today, however, the president hoped to have his mail disposed of and plans to fish in the Gulf stream waters of the Atlantic, seeking sail fish.

#### The Gettysburg Address

**F**OURSCORE and seven years ago our fathers brought forth on this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal.

Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battle-field of that war. We have come to dedicate a portion of that field as a final resting place for those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this.

But in a large sense, we cannot dedicate, we cannot consecrate, we cannot hallow, this ground. The brave men, living and dead, who struggled here have consecrated it far above our poor power to add or detract. The world will little note nor long remember what we say here, but it can never forget what they did here. It is for us, the living, rather, to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us—that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion; that we here highly resolve that these dead shall not have died in vain; that this nation, under God, shall have a new birth of freedom, and that government of the people, by the people, for the people, shall not perish from the earth.

## 3 Gangsters Bind and Gag Night Marshal, Blast Bayport Postoffice Vault, Steal \$2,000

### TRIO BELIEVED TO BE FROM ST. PAUL OR MINNEAPOLIS

**VILLAGE MARSHAL SURPRISED  
AS HE REFUELLED TOWN  
HALL FURNACE**

**WAS ASKED DIRECTION TO GAR-  
AGE, THEN GAGGED AND  
BLINDFOLDED**

Bayport, Minn., Feb. 12.—(U.P.)—Three gangsters believed from St. Paul or Minneapolis today bound and gagged the night marshal, blasted the vault of the Bayport postoffice and escaped with more than \$2,000 in stamps and stamped envelopes.

Federal authorities came here from St. Paul immediately and opened an investigation. Police of the Twin Cities and of nearby towns were asked to watch for the bandits.

Eric Magnuson, the village marshal, was surprised as he refueled the furnace of the town hall by two men who asked where they could obtain a tow car. As he was directing them to a garage, the bandits drew revolvers.

The marshal was bound, gagged and blindfolded and taken to the street where he was guarded by a third bandit. The other two robbers entered the postoffice through a window and blew open the safe.

After they had rifled the safe and unsuccessfully attempted to open the cash drawer, the bandits took Magnuson into the postoffice and bound him to a chair. They removed the blindfold and left, warning him "if you value your brains."

A half hour after the three bandits left, Magnuson released himself and gave the alarm at 4:30 A. M. He examined the postoffice and found the entire front of the safe blown off, apparently by a large charge of powder.

Postal authorities said a considerable sum of money was contained in the cash drawer which resisted the efforts of the bandits to open it. Only a small amount of cash was taken from the safe.

### BYRD SUPPLY SHIP, ELEANOR BOLLING, GROUNDS ON BANK

Auckland, N. Z., Feb. 12.—(U.P.)—En route to the Antarctic, Admiral Richard E. Byrd's supply ship, the Eleanor Bolling, grounded on a sandbank while leaving Dunedin today. Tugs and launches succeeded in refloating her.

Paul, today sent Inspector A. A. Wicht to Bayport after he received reports of the robbery of the postoffice safe there.

The robbers set upon Erick Magnuson, village marshal, as he was replenishing the fire in the town hall heating plant about 3 A. M. They struck Magnuson from the rear, bound and gagged him and then broke into the postoffice through a side window.

Residents failed to hear the explosion which blew the door from the safe and the alarm was not spread until an hour later when Magnuson freed himself. A hasty checkup revealed little money was taken in the robbery.

State and federal officials in St. Paul were notified and Twin City police were asked to be on the watch for the robbers.

The scene of the robbery is less than two miles from the state penitentiary at Stillwater.

(Bayport is 18 miles northeast of St. Paul and near Stillwater, Minn.)

Oilton, Okla., Feb. 12.—Two bandits today held two officers as hostages while they blasted the safe of the Oscar Anderson Ford dealers' building and escaped with cash and securities estimated at \$2,000.

### GERMAN POLICE RAID THE OFFICE OF SOVIET COMMISSIONER

Munich, Germany, Feb. 12.—(U.P.)—Twenty policemen raided the office of the Soviet trade commissioner here today, arresting the official, and seized documents and correspondence from the office files.

The trade commissioner was later released.

The correspondence was said to have concerned the proposed sale of explosives by the Soviet government to German firms. A search was made later of the homes of the Russian bureau's employees.

### HAITIANS IN DEMONSTRATION NEAR CHURCH

**CROWD OF 500 ADDRESSED BY 3  
SPEAKERS CRITICIZING  
GOVERNMENT**

**AUTHORITIES BREAK UP MEET-  
ING AND MAKE 31  
ARRESTS**

Port au Prince, Haiti, Feb. 12.—(U.P.)—The rioting and bloodshed of last December were recalled today when a crowd of Haitians held a manifestation in front of the cathedral here after a mass had been said in memory of the natives killed by United States marines at Aux Cayes in December.

Authorities broke up the demonstration and made 31 arrests.

The crowd, estimated at 500, was addressed by three speakers, who blamed the government, "aided by American machine guns" for "misery" existing in Haiti.

After those arrested had been taken to the police station, a crowd of 100 gathered before the building, shouting "long live liberty." They were quickly dispersed and the city was quiet late in the morning.

### CULLING OF DAIRY HERDS RECOMMENDED

Crookston, Minn., Feb. 12.—(U.P.)—Culling of dairy herds as the most economical way to reduce the present butter surplus was recommended today by H. H. Searles, dairy extension specialist of the University of Minnesota department of agriculture, before the Red River Valley winter shows and northwest school farmers' week.

Searles said that since the price of butterfat had fallen to about 40 cents a pound dairymen had started to feed their cows less.

"This is one way to reduce surpluses," he said, "but it is an expensive way for dairymen because it does not reduce the overhead cost of doing business."

About three per cent of Minnesota herds are being tested at the present time, the specialist said.

### SMALLEST BOOK IN U. S. CONTAINS 4 LINCOLN SPEECHES

Minneapolis, Feb. 12.—(U.P.)—Frank Walter, University of Minnesota librarian, today claimed that in the smallest book in the United States were four speeches by Abraham Lincoln.

Recently the book, which may be covered by a postage stamp, was received at the university from the Press Vocational school of Kingston, Tenn. In the 160 pages are the Gettysburg address, the second inaugural address, the speech referring to a "house divided against itself" and the address on the equality in the republic.

The book formed a special Lincoln display today.

### McCULLOUGH IN CRITICISM OF FEDERAL BULLETIN

**TAKES EXCEPTION TO FIGURES  
OF MUSKRAT BREEDING  
PROLIFICALLY**

**ATTACKS STATEMENT ANIMALS  
ARE EASILY KEPT IN NAR-  
ROW QUARTERS**

St. Paul, Feb. 12.—(U.P.)—George W. McCullough, state game and fish commissioner, today criticized the federal government for its part in aiding fur farm promoters in mulcting thousands of dollars from Minnesotans.

McCullough issued a warning to prospective purchasers of fur animals to purchase them on a basis by which they may make money raising pelts and not rely on profits from breeding purposes.

"In reviewing the fur industry as operated in this state," McCullough said in a statement, "one cannot help but feel disposed to criticize those responsible for the issuing of certain bulletins."

"We read in the United States department of agriculture bulletin No. 869 that muskrat litters average from six to eight young and that such animals breed from three to five times a year."

"According to these figures it is possible for one to secure an increase of 33 muskrats per female."

"The same bulletin states that 'muskrats are easily kept in very narrow quarters and become very tame.'"

"Despite this bulletin, rearing of muskrats in pens has not yet proven a success. We might say that for the most part such projects have been failures."

### HAVE DAY OFF ON ACCOUNT OF HOLIDAY

Minneapolis, Feb. 12.—(U.P.)—The Hennepin county grand jury investigating the activities of the Ten Thousand Lakes Fur Farm today had a day off to celebrate Lincoln's birthday.

Rumors, however, circulated as usual today. It was reported that Guy S. Brubaker, recently removed secretary of the state securities commission, was "shielding" others in his confession that certain documents had been removed from the commission's files.

Governor Theodore Christianson removed Brubaker because he said he had destroyed papers dealing with the allegedly illegal contracts sold by the fur farm.

Brubaker, accompanied by his physician, testified yesterday before the jurors and was reported to have told his story of how the documents were destroyed.

Several salesmen of the fur farm were expected to be called tomorrow by the jurors.

County Attorney Floyd B. Olson's office was investigating alleged transaction in Canada by fur farm employees who are alleged to have sold pelts there.

### DECLARES PROHIBITION AS BEING INSINCERE

Mankato, Minn., Feb. 12.—(U.P.)—Knights of Columbus today considered the advice of the Rev. Father William A. Baker of St. Thomas college, St. Paul, to vote as they drink to escape "the impossible legal situation which prohibition has brought."

The speaker pointed to the "tremendous insincerity of prohibition" as resulting in a law which can not be enforced or repealed.

### EARTHQUAKE SHAKES NEW ZEALAND AREA

Wellington, N. Z., Feb. 12.—(U.P.)—An earthquake, the most severe shock in 40 years—shook the southern part of North Island today.

The Porangahu area was severely damaged, with hardly a chimney left intact.

### ASSUMES MORE THREATENING AND SERIOUS FORM

**OPPOSITION HAS GAINED CON-  
SIDERABLE HEADWAY IN  
SENATE**

**SENATOR BORAH SAYS APPOINT-  
MENT STRIKES AT FUNDAMEN-  
TALS OF GOVERNMENT**

By PAUL R. MALLON  
(United Press Staff Correspondent)

Washington, Feb. 12.—Opposition to confirmation of Charles Evans Hughes as chief justice of the United States assumed a more threatening and serious character as the senate convened today for further debate and a possible vote.

The opposition has gained such headway that Republican Floor Leader Watson wants to force a vote before it develops any further. On Monday when the vote was taken in the judiciary committee only two or three senators were known to be opposed to Hughes. Now, however, there are indications that as many as 20 senators are ready to vote against him.

There is yet no reason to expect the nomination will be defeated unless there is a change in the attitude of democrats. Most of the minority leaders have intended to vote for confirmation.

Senator Borah, republican, Idaho, contended the appointment struck at the very fundamentals of government. Citing Hughes' writings and decisions, the Idahoan said Hughes is aligned with those believing that property rights should be exalted above all rights.

"I believe his opinion is that practically no restraint should be placed on vast corporate interests," Borah said. "I do not know any problem of more concern to the people than the retention of their national resources at reasonable rates."

Borah predicted if the control of oil, coal, gas, transportation and transmission continue in the hands of a few people that congress eventually will be driven to public ownership for the protection of the people.

The tariff bill was laid aside in order that republican leaders might press for a vote as soon as possible. The house is considering minor calendar bills most of the interest there being centered on the opening of hearings before the house judiciary committee on bills to change the 18th amendment.

Washington, Feb. 12.—The fight of westerners of both political parties to block confirmation of Charles Evans Hughes as chief justice of the United States spread in the senate today, with Senators Dill, democrat, Washington, and Brookhart, republican, Iowa, protesting against confirmation.

Before crowded galleries, but with a small attendance of senators, Dill and Brookhart made speeches contending Hughes represented the theory of government which would exalt property rights above those of the people.

The Washington senator used Hughes' brief as a private attorney representing the General Electric Company in the WGY suit against the government. He said that if Hughes had his way as expressed in this brief, "the people would not own the air they breathe."

Brookhart contended one of the greatest evils is the methods of fixing railroad valuations, a method endorsed by Hughes. He said the conditions of the farmer could be attributed in a great part to the high railroad rates under this valuation scheme.

Washington, Feb. 12.—The attack against confirmation of Charles Evans Hughes as chief justice of the United States was reopened in the senate today when Senator Dill, democrat, of Washington, criticized the appointment.

"What a coincidence that this is the birthday of Abraham Lincoln, the greatest champion of the people's rights," Dill said, "and we here are considering the appointment of Mr. Hughes, the greatest champion of property rights."

"Lincoln would have had no chance to be appointed to the supreme court in his time because he was looked upon as a radical."

### 2 CHILDREN AND THEIR MOTHER ARE BURNED TO DEATH

Bluefield, W. Va., Feb. 12.—(U.P.)—Two children and their mother were burned to death and three others suffered serious injuries today when fire destroyed the home of J. Harmon Mullins near here. The dead are Mrs. Mullins, Emma Pee, 14, and Vernie James, 12.

The four day old twin sons of the Mullins family were wrapped in a feather mattress and tossed to safety from a second story window by the father.

Oilton, Okla., Feb. 12.—Two bandits today held two officers as hostages while they blasted the safe of the Oscar Anderson Ford dealers' building and escaped with cash and securities estimated at \$2,000.

GERMAN POLICE  
RAID THE OFFICE OF  
SOVIET COMMISSIONER

Munich, Germany, Feb. 12.—(U.P.)—Twenty policemen raided the office of the Soviet trade commissioner here today, arresting the official, and seized documents and correspondence from the office files.

The trade commissioner was later released.

The correspondence was said to have concerned the proposed sale of explosives by the Soviet government to German firms. A search was made later of the homes of the Russian bureau's employees.

HAITIANS IN  
DEMONSTRATION  
NEAR CHURCH

CROWD OF 500 ADDRESSED BY 3  
SPEAKERS CRITICIZING  
GOVERNMENT

AUTHORITIES BREAK UP MEETING AND MAKE 31  
ARRESTS

Port Au Prince, Haiti, Feb. 12.—(U.P.)—The rioting and bloodshed of last December were recalled today when a crowd of Haitians held a manifestation in front of the cathedral here after a mass had been said in memory of the natives killed by United States marines at Aux Cayes in December.

Authorities broke up the demonstration and made 31 arrests.

The crowd, estimated at 500, was addressed by three speakers, who blamed the government, "aided by American machine guns" for "misery" existing in Haiti.

After those arrested had been taken to the police station, a crowd of 100 gathered before the building, shouting "long live liberty." They were quickly dispersed and the city was quiet late in the morning.

CULLING OF DAIRY  
HERDS RECOMMENDED

Crookston, Minn., Feb. 12.—(U.P.)—Culling of dairy herds as the most economical way to reduce the present butter surplus was recommended today by H. H. Searles, dairy extension specialist of the University of Minnesota department of agriculture, before the Red River Valley winter shows and northwest school farmers' week.

Searles said that since the price of butterfat had fallen to about 40 cents a pound dairymen had started to feed their cows less.

"This is one way to reduce surpluses," he said, "but it is an expensive way for dairymen because it does not reduce the overhead cost of doing business."

About three per cent of Minnesota herds are being tested at the present time, the specialist said.

SMALLEST BOOK IN  
U. S. CONTAINS 4  
LINCOLN SPEECHES

Minneapolis, Feb. 12.—(U.P.)—Frank Walter, University of Minnesota librarian, today claimed that in the smallest book in the United States were four speeches by Abraham Lincoln.

Recently the book, which may be covered by a postage stamp, was received at the university from the Press Vocational school of Kingston, Tenn. In the 160 pages are the Gettysburg address, the second inaugural address, the speech referring to a "house divided against itself" and the address on the equality in the republic.

The book formed a special Lincoln display today.

McCULLOUGH IN  
CRITICISM OF  
FEDERAL BULLETIN

TAKES EXCEPTION TO FIGURES  
OF MUSKRAT BREEDING  
PROLIFICALLY

ATTACKS STATEMENT ANIMALS  
ARE EASILY KEPT IN NARROW  
QUARTERS

St. Paul, Feb. 12.—(U.P.)—George W. McCullough, state game and fish commissioner, today criticized the federal government for its part in aiding fur farm promoters in mulcting thousands of dollars from Minnesotans.

McCullough issued a warning to prospective purchasers of fur animals to purchase them on a basis by which they may make money raising pelts and not rely on profits from breeding purposes.

"In reviewing the fur industry as operated in this state," McCullough said in a statement, "one cannot help but feel disposed to criticize those responsible for the issuing of certain bulletins."

"We read in the United States department of agriculture bulletin No. 269 that muskrat litters average from six to eight young and that such animals breed from three to five times a year."

"According to these figures it is possible for one to secure an increase of 33 muskrats per female."

"The same bulletin states that 'muskrats are easily kept in very narrow quarters and become very tame.'"

"Despite this bulletin, rearing of muskrats in pens has not yet proven a success. We might say that for the most part such projects have been failures."

HAVE DAY OFF ON  
ACCOUNT OF HOLIDAY

Minneapolis, Feb. 12.—(U.P.)—The Hennepin county grand jury investigating the activities of the Ten Thousand Lakes Fur Farm today had a day off to celebrate Lincoln's birthday.

Rumors, however, circulated as usual today. It was reported that Guy S. Brubaker, recently removed secretary of the state securities commission, was "shielding" others in his confession that certain documents had been removed from the commission's files.

Governor Theodore Christianson removed Brubaker because he said he had destroyed papers dealing with the allegedly illegal contracts sold by the fur farm.

Brubaker, accompanied by his physician, testified yesterday before the jurors and was reported to have told his story of how the documents were destroyed.

Several salesmen of the fur farm were expected to be called tomorrow by the jurors.

County Attorney Floyd B. Olson's office was investigating alleged transaction in Canada by fur farm employees who are alleged to have sold pelts there.

DECLARES PROHIBITION  
AS BEING INSINCERE

Mankato, Minn., Feb. 12.—(U.P.)—Knights of Columbus today considered the advice of the Rev. Father William A. Pater of St. Thomas college, St. Paul, to vote as they drink to escape "the impossible legal situation which prohibition has brought."

The speaker pointed to the "tremendous insincerity of prohibition" as resulting in a law which can not be enforced or repealed.

EARTHQUAKE SHAKES  
NEW ZEALAND AREA

Wellington, N. Z., Feb. 12.—(U.P.)—An earthquake, the most severe shock in 40 years—shook the southern part of North Island today.

The Porangahu area was severely damaged, with hardly a chimney left intact.

OPPOSITION HAS GAINED CONSIDERABLE HEADWAY IN SENATE

SENATOR BORAH SAYS APPOINTMENT STRIKES AT FUNDAMENTALS OF GOVERNMENT

By PAUL R. MALLON

(United Press Staff Correspondent)  
Washington, Feb. 12.—Opposition to confirmation of Charles Evans Hughes as chief justice of the United States assumed a more threatening and serious character as the senate convened today for further debate and a possible vote.

The opposition has gained such headway that Republican Floor Leader Watson wants to force a vote before it develops any further. On Monday when the vote was taken in the judiciary committee only two or three senators were known to be opposed to Hughes. Now, however, there are indications that as many as 20 senators are ready to vote against him.

There is yet no reason to expect the nomination will be defeated unless there is a change in the attitude of democrats. Most of the minority leaders have intended to vote for confirmation.

Senator Borah, republican, Idaho, contended the appointment struck at the very fundamentals of government. Citing Hughes' writings and decisions, the Idahoan said Hughes is aligned with those believing that property rights should be exalted above all rights.

"I believe his opinion is that practically no restraint should be placed on vast corporate interests," Borah said. "I do not know any problem of more concern to the people than the retention of their national resources at reasonable rates."

Borah predicted if the control of oil, coal, gas, transportation and transmission continue in the hands of a few people that congress eventually will be driven to public ownership for the protection of the people.

The tariff bill was laid aside in order that republican leaders might press for a vote as soon as possible. The house is considering minor calendar bills most of the interest there being centered on the opening of hearings before the house judiciary committee on bills to change the 16th amendment.

Washington, Feb. 12.—The fight of westerners of both political parties to block confirmation of Charles Evans Hughes as chief justice of the United States spread in the senate today, with Senators Dill, democrat, Washington, and Brookhart, republican, Iowa, protesting against confirmation.

Before crowded galleries, but with a small attendance of senators, Dill and Brookhart made speeches contending Hughes represented the theory of government which would exalt property rights above those of the people.

The Washington senator used Hughes' brief as a private attorney representing the General Electric Company in the WGY suit against the government. He said that if Hughes had his way as expressed in this brief, "the people would not own the air they breathe."

Brookhart contended one of the greatest evils is the methods of fixing railroad valuations, a method endorsed by Hughes. He said the conditions of the farmer could be attributed in a great part to the high railroad rates under this valuation scheme.

Washington, Feb. 12.—The attack against confirmation of Charles Evans Hughes as chief justice of the United States was reopened in the senate today when Senator Dill, democrat, of Washington, criticized the appointment.

"What a coincidence that this is the birthday of Abraham Lincoln, the greatest champion of the people's rights," Dill said, "and we here are considering the appointment of Mr. Hughes, the greatest champion of property rights."

"Lincoln would have had no chance to be appointed to the supreme court in his time because he was looked upon as a radical."

2 CHILDREN AND  
THEIR MOTHER ARE  
BURNED TO DEATH

Bluefield, W. Va., Feb. 12.—(U.P.)—Two children and their mother were burned to death and three others suffered serious injuries today when a fire destroyed the home of J. Harmon Mullins near here. The dead are Mrs. Mullins, Emma Pee, 14, and Vernie James, 12.

The four day old twin sons of the Mullins family were wrapped in a feather mattress and tossed to safety from a second story window by the father.

## Birthday Surprise Party

A birthday surprise was held Saturday evening on Neis P. Nelson at his home in Maple Grove township.

About 50 friends and relatives gathered at the home in a complete surprise on Mr. Nelson. Cards were played and dancing enjoyed throughout the evening. A lunch, which had been brought by guests, was served at midnight. Mr. Nelson was presented with a number of gifts.

## To Entertain Guild

Miss Irene Lowey will entertain St. Mary's Guild of the St. Paul's Episcopal church this evening in the church basement. Mrs. C. M. Brandon will give a talk on the Altar Guild work.

BRAINERD  
25 YEARS AGO

From the Daily Dispatch

February 12, 1905

Secretary Flickwir, C. Bruhn and Alden Fuller left this afternoon for Duluth to attend the Y. M. C. A. convention.

Rev. W. J. Palm has received a call to go to Bemidji to accept the pastorate of the Presbyterian church of that city. He has not decided positively what he will do, but it is not likely that he will go there as he wishes to live in a warmer climate.

The Black Hawks expect to have a suite of rooms furnished in the Bane block in very elegant style. The club is composed of several young men in the city who meet occasionally for the study of matters looking to the advancement of their social and educational standing.

Mr. and Mrs. Charles Metcalf will celebrate the fiftieth anniversary of their wedding this evening at their home on North Seventh street. The career of Mr. Metcalf is an interesting one for he had to do with the early development of the railroad industry in the northwest. They have three children who are all here to help celebrate the evening.

Yesterday was the twentieth wedding anniversary of Dr. and Mrs. Walter Courtney.

Mrs. L. M. Koop returned from the eastern markets this afternoon where she has been buying her summer and fall stock of dry goods.

A nine pound baby boy was born to Mr. and Mrs. William Graham this morning and the professor is highly elated.

## Attending Druggists Convention

Richard M. Johnson and Frank Johnson, of the Johnson Pharmacy and Economy Drug Store are in Minneapolis attending the Retail Druggists 46th annual convention, being held at the Nicollet hotel February 12, 13 and 14.

It is estimated over 1,000 are in attendance at the convention.

## Piano Classes Continued

Miss Mildred Bredenberg, who has been confined to her home for the past three weeks with the flu, left today for Minneapolis where she will vacation for a time.

Miss Ursell Hurn, a MacPhail graduate of Minneapolis, arrived at the Bredenberg home on Monday, and will take care of Miss Bredenberg's piano pupils while the latter is convalescing. Miss Hurn left Tuesday for Crosby where she is spending three days teaching Miss Bredenberg's pupils there.

## Holland's First Tulips

Tulips are said to have been introduced into Holland in the first part of the Seventeenth century by an Austrian ambassador.

## Congregational Monthly Church Night

The monthly church night at the First Congregational church will be tomorrow evening at 7:45 o'clock. Rev. Olmsted will give a talk on the "Religion of Abraham Lincoln." There is important business and the trustees are anxious to have a large attendance.

## Evangelical Ladies Aid

The Evangelical ladies aid of north-east Brainerd will meet at the church tomorrow afternoon. The entertainment committee will be composed of Mrs. Apgar, Mrs. A. Shanks, Mrs. A. Gorton, and Mrs. S. H. Wooden. Friends are cordially invited to attend the meeting.

Would have liked this store that frees style of extravagance and that is owned by an independent merchant.

For Spring—the utmost in true styling in clothing at prices as follows—

\$22.50 to \$39.50 for suits

\$16.50 to \$30.00 for topcoats.

As beautiful a hat as a prince could ask for his crown is only \$5.00 to \$7.50.

All our furnishings and sports wear run on the same reasonable cost schedule.

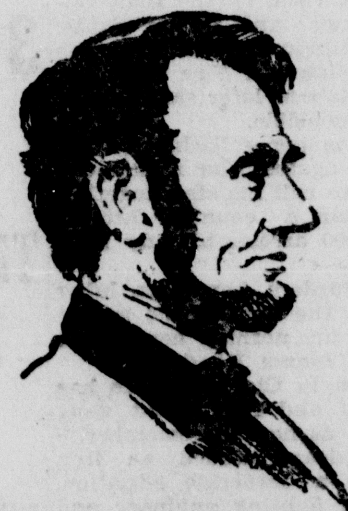

It's smart to save—and save you do at the John M. Bye Clothing Co.'s store.

Here is a store where lads and dads can select their Spring clothing and furnishings at a very reasonable price. The quality is high—but the price is low.

## PREPARE FOR FIRST SHAKESPEARE PLAY

B. H. S. Players to Present "A Midsummer Night's Dream,"  
March 1

**COSTUMES ARE GORGEOUS**

Cast Announced for Fascinating Production Which Carries Tragedy, Comedy

For many years the high school students have looked forward to the day when money that went into rental of the Park theatre might be applied on costumes. Many plays that would otherwise have been presented, were laid aside because a memorial and costuming could not both be had; and the memorial came first in importance. Now that the school has its own adequately equipped auditorium, the senior class has chosen "A Midsummer Night's Dream" as the vehicle for their dramatic talent—the first Shakespearean drama to be presented by the high school. It will be played on March 1 at 8:15 p. m. A large cast is working hard at interpreting the lines of the immortal bard and putting themselves back in the days of Duke Theseus of Athens—just home from a triumphal conquest of the Amazons, whose queen he has captured and is to make his bride.

Costumes for the production are gorgeous. They will be furnished by the Northwestern Costume Co.

Interwoven with the main plot are two others—that of the mechanics of Athens who desire to produce a play for the duke, and the quarrels of Oberon and Titania, the king and queen of the fairies. All three plots touch and intermingle, and the lives of the various characters in the play are all affected by the other characters. The play is a delightful fantasy of elves and fairies dancing in the moonlit glades, of lovers, bewitched by the mischief, Puck, and wandering in the woods, all distraught. Poetry and prose, fairies and humans, comedy and tragedy, love and despair, sublimity and slapstick comedy—all these are to be found in the play.

For this fascinating drama Mendelssohn has written some of his most charming music.

Following are the characters of the play:

Theseus, Duke of Athens—Claude Holden.

Lysander, in love with Hermia—Zane Smith.

Demetrius, his rival—Clarence Holden.

Egeus, Athenian noble, father to Hermia—David Weber.

Philstrate, master of revels—Richard Ebert.

Nick Bottom, the weaver—Ross Olmsted.

Quince, the carpenter—Roger Kieven.

Snug, the joiner—Arthur Lemire.

Flute, the bellows mender—Adolph Erickson.

Snout, the tinker—Joe Heald.

Starveling, the tailor—Otto Dahl.

Hippolyta, Queen of the Amazons—Genevieve Jenkins.

Hermia, daughter of Egeus, in love with Lysander—Margaret Vadnais.

Helena, in love with Demetrius—Alice Lind.

Lords and ladies in attendance.

Oberon, king of Fairy Land—Obert Benson.

Puck, or Robin Goodfellow—Roger Callahan.

Fairies in attendance.

Titania, queen of the fairies—Donna Cunningham.

New York, Feb. 12.—Billy Jones and Ernie Hare may be billed as the "Interwoven Pair," but their selection of songs for broadcasting over the NEC network at 8 p. m. Friday fails to carry out the theme. Their first number will be "I'm On a Diet of Love," which is real noble sentiment, but their next seems all out of line. It is "Sweet Onion Time" and a young man

in love knows that they'll build him up physically and tear him down socially.

The East of Cairo program scheduled for presentation by WEA and the NEC network at 7 p. m. today was cancelled to allow broadcast of the annual Lincoln's birthday dinner of the Central Trades and Labor Council of greater New York.

The speaker of the evening will be William Green, president of the American Federation of Labor, who will be introduced by Chairman Joseph P. Ryan.

A hitherto unpublished story about President Abraham Lincoln and General U. S. Grant will be given over the Columbia network at 5:30 p. m. today by Lewis G. Reynolds, custodian of the Lincoln museum in Washington. The program will be broadcast from the room where the emancipator expired. The museum is opposite Ford's theater where Lincoln was shot by John Wilkes Booth.

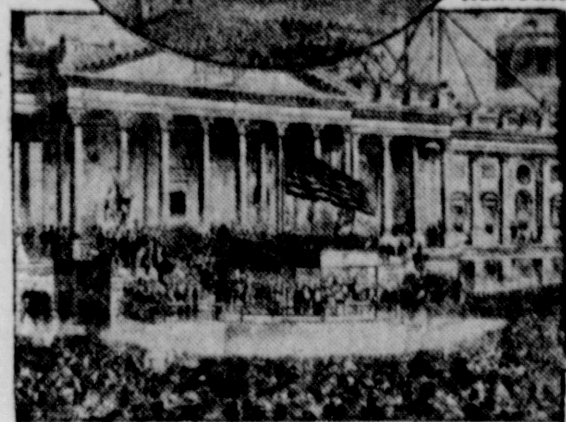

Several other programs during the day on both the Columbia and NEC networks will be devoted to Lincoln programs.

Fox Movietone Talker, "The Girl From Havana" Is Filmed on the Spot

On the broad, palm-lined avenues of Havana, amid the sugar plantations, at Balboa, in the Canal Zone, and on board a liner passing through the Panama Canal, scenes of "The Girl From Havana," all talking Fox Movietone production showing at the Paramount Thursday and Friday.

"The Girl From Havana," played brilliantly by Lola Lane, is a detective who is sent from the Cuban capital

by Jewelers' Detective Agency to Balboa to intercept a passenger liner Havana-bound upon which a gang of jewel thieves have taken passage from Los Angeles.

They have with them the loot of a diamond robbery perpetrated in broad daylight upon a Los Angeles jewelry establishment, the intriguing incident with which the picture opens. Their attempt to land at Morro Castle before the steamer docks, and the denouement when the clever girl detective not only springs her trap, but finds a threatened romance of her own, marks a colorful and vastly exciting climax to this most unusual Fox Movietone production.

## Lincoln

No man in history has been more hated and slandered, loved and revered and misunderstood than Lincoln. Sections of the north even impugned his motives. His every word and action provided grounds for caustic criticism and now that it is all over and he belongs to the ages, the names of detractors have gone into the dust heaps of history. His name shines above all others, growing in brilliance.

His speech at Gettysburg was very short. It lives forever, while the name of the other eloquent orator at the exercises, a man who spoke two hours and a half and whose address covers some 16 pages in old books of reference, is forgotten.

The idea that Lincoln jotted down this speech in 15 minutes is erroneous. He may have set down notes, but the thoughts had become a part of the life, the very being of Lincoln.

Studying his life, papers, letters, addresses, one lays the foundation for broader citizenship. He lived in a time of stress and turmoil, but he held fast to his principles which in the end saved the union and prevented a divided nation.

Lincoln's school learning was woefully short. The University of Hard Knocks, of self study, was his alma mater. Self reliant in his youth, he continued so to the end. He believed in the efficacy of prayer. Without divine guidance he could not have carried on as he did.

## Industrialized Agriculture

FEARS that corporation farming on a large scale, taking a leaf out of the book of mass production, will supersede the family farming, reducing the farmer to the level of a mere wage earner, are held to be groundless in a report on large-scale farming made by the Agricultural Service Department of the Chamber of Commerce of the United States.

"Concern sometimes is evidenced," the report states, "over the social effects upon the rural population which might result from substantial development of corporation farming. It is argued that the operation of the country's farms by great corporations would reduce the present independent proprietors to dependent corporation employees, regiment the farm population in the same manner as urban industrial workers are now regimented, deaden the independent spirit of the countryside which has been the accompaniment of the system of small individual enterprises, cut off a prolific source of industrial and governmental leadership and destroy the traditions and institutions of rural life.

"Such fears are at least premature. Corporation farming still is a negligible factor in the social organization of rural communities. Its growth, for reasons heretofore enumerated, probably will be slow. It is doubtful whether corporation-operated farms will ever supplant entirely the small units."

## Taxing Gasoline

INVENTION of a new tax is always a dangerous thing, even though it may often be necessary. After the ground is broken and the tax laid there is a tendency to increase it. More often than not increases are imposed. This is indicated by the gasoline tax. Barely 10 years old, it has come into such wide popularity as a means of raising revenue that today a gas tax is levied in every state in the union.

In 30 states the rate is now 4 cents a gallon or more, and from \$100,000,000 raised in this manner in 1925, the total taken from the pockets of motorists rose to \$500,000,000 in 1929. We hear no specific complaints from motorists around Park Rapids, because they believe the taxation of gasoline was originally justified. But the practice of steadily increasing it, jumping it a cent or two every year or so, is certain to call forth a widespread and strenuous protest. As roads are built and paid for, and as the gas tax reaches the point where it is bringing in enough to take care of them, increases should cease. Gasoline is not always going to be as cheap as it is now, and when it jumps in price the additional tax is going to work a hardship on millions of motorists. With these considerations to be reckoned with our legislators should be content to let the tax rest where it is.—Park Rapids Enterprise.

## Families in Government

THE argument has been made by some that naming Charles Evans Hughes chief justice of the U. S. supreme court means continuing families in government.

This is not the first time that some family has grown prominent in the affairs of the nation. The Adams family was a noteworthy one in Revolutionary times.

In later times we find the Roosevelt family quite prominent, and the Taft family too. It is hard to see what can be done with some of these families which show an aptitude in the law, in politics, in good citizenship, etc. They set a good example.

A GLACIAL age that will wipe Duluth and other northwest cities off the earth has been predicted by Walter L. Payne, a world traveler and explorer. As it is supposed to occur 200,000 centuries in the future, it will be hard for us to be present to verify the cold ice deluge.

"NEXT station's Pennellton, m'am."

Marion Caruthers looked up, nodded to the porter, quickly stuffed the magazine she was reading into her grip and put on her coat and hat. A moment later she was standing on the platform watching the train pull out. "Miss Caruthers?" said a pleasant voice, and Marion saw before her a middle-aged man with bare head.

"I'm Thompson, the principal of the school where you're going to teach." "How nice of you to meet me," she said. "I'm awfully glad you're the principal because I know I'll like you."

"You're very young, Miss Caruthers," he mused, glancing up and down her trim little figure.

"Yes, this is my first school," she admitted.

"I hope you'll like it; we do. We'll just get home in time for dinner," he continued.

"Dinner?" she gasped. "Why, up home we always have dinner at six o'clock."

"We're just ordinary folks down here. Guess you'll have to make allowances."

Mrs. Thompson met Marion at the door and gave her a warm welcome. "So glad to see you, dear. Are you very tired? How do you like our country? Dinner's just ready. I'll show you your room so you can take off your things."

When Mrs. Thompson came back down stairs she and her husband had a hurried word in the hall.

"Isn't she attractive?" said Mrs. Thompson. "What lovely eyes and such a quick infectious smile."

"Yes, but I'm afraid she's too young to manage children in a country high school. Had absolutely no experience."

Their comments were cut short by the entrance of Marion and they all hurried into the dining room.

"Biscuits?" said Marion quizzically at the dinner table. "Up North we have bread—bake Wednesdays and Saturdays."

"I'm sorry we have none," said the professor quietly.

"And you serve string beans with pork," Marion went on in amazement. "I never saw that before."

By the time the meal was over Mrs. Thompson felt that her well-cooked dinner had fallen short of the mark.

The following day school began and Marion was busy all the rest of the week getting things organized in her classroom.

At the first parent-teachers' meeting she nearly had an open tilt with one or two of the mothers. She just could not make them see. And, worst of all, she had a feeling that they did not understand her. There was only one person in Pennellton who did and he was John Hamilton, the Latin professor.

Fall slipped into winter and the students at Pennellton county high pegged away. Marion had enjoyed the holidays immensely. Professor Hamilton's mother had invited her over for dinner, after which they had gone on a straw ride and had supper at a distant inn. It was a jolly crowd. Then there were two dances and Marion had made a decided hit each night. Still she did not feel that she was one of them. There was always a slight coolness about these people that was apt to freeze suddenly right in the middle of a conversation, and without a moment's notice. Southern people were nice, but queer—so queer. No doubt about that.

And now spring had come again and soon Marion would be going back home, and for some peculiar reason she was not sure that she was glad. She had made a success of her teaching and Professor Thompson had been unstinted in his praise of her work.

The parent-teachers decided to give a parting banquet in honor of themselves and to commemorate a most successful year's work. Marion put on her best evening dress and looked her stunningest as she sat beside Professor Thompson at the long table.

Mrs. Burton rose and began to make a speech.

"This banquet," she said, "is in honor of Miss Caruthers. Everything on the table has been prepared by a northern woman we coaxed over from Delton and the recipes all came out of a northern cook book. We wanted just once to do something down South as they do it up North, and—"

"Oh, forgive me," interrupted Marion, jumping up. "I see it all now, but I never realized how tactless it was. That's what's been the matter. What a little beast I've been! Would it help to make amends now if I tell you I love the South and the people and the cooking and everything, and I did so want them to love me. If you ever hear me say up North again I hope you'll run me out of the county. That's what I deserve, anyway."

Flushed and breathless, she dropped into her chair again.

"Yes, I'm certain Miss Caruthers feels every word she's said about liking the South and all that," said Professor Hamilton, rising, "because she's going to marry me!"

"Jack, you—"

But the rest was lost in a round of applause and the banquet table was almost upset as the crowd rushed forward to congratulate the happy couple, while Professor Hamilton congratulated himself on his brilliant coup d'état.

## FARM STOCK

## CALF FATTENING TESTS CONDENSED

## Colorado Station Outlines Results of Experiments.

Results of calf-feeding experiments conducted by the Colorado Agricultural college experimental station during 1928 and 1929 are summarized and discussed in a new bulletin recently published at the college.

Stockmen who are feeding calves this winter will find this leaflet, Press Bulletin 70, entitled, "Feedlot Rations for Fattening Calves," of much value, it is believed. Copies will be sent free to anyone interested.

The report on the 1929 test and the summary of the results of two years' experiments are prepared by E. J. Maynard, assistant professor of animal husbandry at the college.

Outstanding results obtained in the two years are summarized in the bulletin as follows:

1. A standard beet by-product ration of wet beet pulp, barley, cotton cake and alfalfa proved cheapest and most efficient for fattening calves in best growing areas.

2. The relative efficiency of wet beet pulp siloed at the factory and pressed beet pulp siloed at the farm will depend largely on the comparative length of time the pulp is stored.

3. Trench silos are practically as efficient and much cheaper than straw silos for storing pressed pulp.

4. Corn silage can be used to supplement wet beet pulp in a beet by-product ration for fattening calves; 6.3 pounds of corn silage fed daily reduced the pulp requirement by nearly one-half.

5. Dried sugar-beet tops showed a feed replacement value of \$0.41 per ton of tops fed.

6. Steer calves made cheaper and heavier gains than heifer calves.

## Practical Treatment Is Urged for Mangy Horse

A horse that has mange may be treated by using a solution made by boiling one and one-half ounces of tobacco in a quart of water. Sponge or brush the horse, using this liquid, and repeat in ten to fourteen days.

It will be necessary to clean the harness, collars, curry combs, brushes, etc., that come in contact with the horse. You can disinfect these articles by using any of the common disinfectants such as lime sulphur or nicotine sulphate or any of the well-known arsenical dips.

Whitewash the barn using one-fourth pound of chloride lime to a gallon of water. It is desirable to dip the harness, brushes, etc., rather than to spray them, as the dipping is more sure to kill the insects.

## Ground Feed for Stock Found Not Profitable

A safe rule as to feed grinding is to grind medium fine all grain for dairy cattle and all hard grain for the other live stock. Extremely fine grinding for cattle, hogs or sheep does not pay for the extra power required, according to tests at Purdue university. Where dockage is used as part of the ration, this should be ground fine enough to destroy all weed seeds. Tests at several experiment stations indicate that so far as feeding value is concerned, grinding dry forage hardly pays, but that there is considerable saving in wasted material, in handling, and in hauling out the manure.

## Live Stock Facts

Wean fall pigs when about eight weeks old.

Sows should take plenty of exercise. Grain should be scattered over the ground to encourage exercising.

A convenient water supply is an essential feature of good live stock management in winter as well as in summer.

In addition to grain the brood sows should be supplied with as much good quality alfalfa or clover hay as they will consume.

Potatoes are somewhat unpalatable, but they can be successfully fed to sheep, cattle and horses in the place of corn silage.

Farmers everywhere are giving greater attention to lowering cost production and developing hogs that most often are market toppers.

In feeding potatoes to hogs it is necessary to cook or steam them, seasoning with a little salt. They more nearly meet the requirements for feeding hogs when used in this way than they do when fed to other classes of live stock.

Cars for shipping cattle in extremely cold weather should be deeply bedded and the sides lined with heavy paper to a height which will prevent strong air currents from striking the animals directly.

## The pace-setters

KEEPING-UP-WITH-THE-JONESES is no mere vagary of the cartooner. It is an actual condition in every city, town, village and hamlet of this great country.

There is a Jones in every locality to set the pace. But the average Jones is not a rich man—far from it. He has a good job, he dresses well, he is a good talker and splendid company. Jones is always the gentleman, welcomed at business conventions, public dinners and social gatherings alike. Mrs. Jones is envied as a successful hostess. Every woman in her set, and out of it, seeks bids to her bridge parties and other social functions. Their home is cozy, tastefully furnished and provided with most of the modern conveniences.

"How do they do it?" ask the neighbors. "We have as much money as they. Socially we are their equals." But without seeming to try, without putting on any "dog," the Joneses set the pace just the same. They have learned from reading advertisements how to have many desirable things at little cost. They keep up to date on almost everything—just reading advertisements.

Keeping-up-with-the-Joneses is a comparatively easy matter—other things being equal. Read the advertisements regularly. Study them. Remember what you learn. Then, when you are in the market for anything, you will know, just as they do, what kind to buy. Soon you'll find yourself saving money, yet having more than you ever had. You'll find folks wondering how you do it. Oh, yes! It's fairly easy, if you make the most of your opportunities.

Advertisements are opportunities . . . study them to your own advantage

## Lincoln

No man in history has been more hated and slandered, loved and revered and misunderstood than Lincoln. Sections of the north even impugned his motives. His every word and action provided grounds for caustic criticism and now that it is all over and he belongs to the ages, the names of detractors have gone into the dust heaps of history. His name shines above all others, growing in brilliance.

His speech at Gettysburg was very short. It lives forever, while the name of the other eloquent orator at the exercises, a man who spoke two hours and a half and whose address covers some 16 pages in old books of reference, is forgotten.

The idea that Lincoln jotted down this speech in 15 minutes is erroneous. He may have set down notes, but the thoughts had become a part of the life, the very being of Lincoln.

Studying his life, papers, letters, addresses, one lays the foundation for broader citizenship. He lived in a time of stress and turmoil, but he held fast to his principles which in the end saved the union and prevented a divided nation.

Lincoln's school learning was woefully short. The University of Hard Knocks, of self study, was his alma mater. Self reliant in his youth, he continued so to the end. He believed in the efficacy of prayer. Without divine guidance he could not have carried on as he did.

## Industrialized Agriculture

FEARS that corporation farming on a large scale, taking a leaf out of the book of mass production, will supersede the family farming, reducing the farmer to the level of a mere wage earner, are held to be groundless in a report on large-scale farming made by the Agricultural Service Department of the Chamber of Commerce of the United States.

"Concern sometimes is evidenced," the report states, "over the social effects upon the rural population which might result from substantial development of corporation farming. It is argued that the operation of the country's farms by great corporations would reduce the present independent proprietors to dependent corporation employees, regiment the farm population in the same manner as urban industrial workers are now regimented, deaden the independent spirit of the countryside which has been the accompaniment of the system of small individual enterprises, cut off a prolific source of industrial and governmental leadership and destroy the traditions and institutions of rural life.

"Such fears are at least premature. Corporation farming still is a negligible factor in the social organization of rural communities. Its growth, for reasons heretofore enumerated, probably will be slow. It is doubtful whether corporation-operated farms will ever supplant entirely the small units."

## Taxing Gasoline

INVENTION of a new tax is always a dangerous thing, even though it may often be necessary. After the ground is broken and the tax laid there is a tendency to increase it. More often than not increases are imposed. This is indicated by the gasoline tax. Barely 10 years old, it has come into such wide popularity as a means of raising revenue that today a gas tax is levied in every state in the union.

In 30 states the rate is now 4 cents a gallon or more, and from \$100,000,000 raised in this manner in 1925, the total taken from the pockets of motorists rose to \$500,000,000 in 1929. We hear no specific complaints from motorists around Park Rapids, because they believe the taxation of gasoline was originally justified. But the practice of steadily increasing it, jumping it a cent or two every year or so, is certain to call forth a widespread and strenuous protest. As roads are built and paid for, and as the gas tax reaches the point where it is bringing in enough to take care of them, increases should cease. Gasoline is not always going to be as cheap as it is now, and when it jumps in price the additional tax is going to work a hardship on millions of motorists. With these considerations to be reckoned with our legislators should be content to let the tax rest where it is.—Park Rapids Enterprise.

## Families in Government

THE argument has been made by some that naming Charles Evans Hughes chief justice of the U. S. supreme court means continuing families in government.

This is not the first time that some family has grown prominent in the affairs of the nation. The Adams family was a noteworthy one in Revolutionary times.

In later times we find the Roosevelt family quite prominent, and the Taft family too. It is hard to see what can be done with some of these families which show an aptitude in the law, in politics, in good citizenship, etc. They set a good example.

A GLACIAL age that will wipe Duluth and other northwest cities off the earth has been predicted by Walter L. Payne, a world traveler and explorer. As it is supposed to occur 200,000 centuries in the future, it will be hard for us to be present to verify the cold ice deluge.

"NEXT station's Pennellton, ma'am."

Marion Caruthers looked up, nodded to the porter, quickly stuffed the magazine she was reading into her grip and put on her coat and hat. A moment later she was standing on the platform watching the train pull out.

"Miss Caruthers?" said a pleasant voice, and Marion saw before her a middle-aged man with bare head.

"I'm Thompson, the principal of the school where you're going to teach."

"How nice of you to meet me," she said. "I'm awfully glad you're the principal because I know I'll like you."

"You're very young, Miss Caruthers," he mused, glancing up and down her trim little figure.

"Yes, this is my first school," she admitted.

"I hope you'll like it; we do. We'll just get home in time for dinner," he continued.

## The pace-setters

KEEPING-UP-WITH-THE-JONESES is no mere vagary of the cartooner. It is an actual condition in every city, town, village and hamlet of this great country.

There is a Jones in every locality to set the pace. But the average Jones is not a rich man—far from it. He has a good job, he dresses well, he is a good talker and splendid company. Jones is always the gentleman, welcomed at business conventions, public dinners and social gatherings alike. Mrs. Jones is envied as a successful hostess. Every woman in her set, and out of it, seeks bids to her bridge parties and other social functions. Their home is cozy, tastefully furnished and provided with most of the modern conveniences.

"How do they do it?" ask the neighbors. "We have as much money as they. Socially we are their equals." But without seeming to try, without putting on any "dog," the Joneses set the pace just the same. They have learned from reading advertisements how to have many desirable things at little cost. They keep up to date on almost everything—just reading advertisements.

Keeping-up-with-the-Joneses is a comparatively easy matter—other things being equal. Read the advertisements regularly. Study them. Remember what you learn. Then, when you are in the market for anything, you will know, just as they do, what kind to buy. Soon you'll find yourself saving money, yet having more than you ever had. You'll find folks wondering how you do it. Oh, yes! It's fairly easy, if you make the most of your opportunities.

Advertisements are opportunities . . . study them to your own advantage

# B. H. S. GOES INTO SLUMP BUT IN SPITE OF IT, WINS 29-21

## PLAYS MEDIOCRE BALL TO DEFEAT STAPLES, 29-21

ONLY PLAYER ON BRAINERD TEAM TO SHOW FORMER CLASS WAS CLAUSEN

UNLESS IMPROVEMENT IS MADE BRAINERD'S CHANCES TO WIN TOURNEY ARE SLIM

Little credit is due the high school team for winning the game from Staples, 29 to 21, last evening at the Washington gym.

The team has gone into a bad slump and unless it comes out of it in remarkable style, it hasn't a beggar's chance to win the district tournament.

There was distinct evidence that the players had gone "stale." Only one man on the team played anywhere near his customary style, and that was Clausen. Everyone, including the reserves, missed set-up shots. It was the poorest game turned in by the Brainerd high school this season. The players were slow, they failed to team-up, and only for the fact that Staples also played wretched basketball, they would have lost.

Had Crosby-Ironton played Brainerd last night the home town boys would have been hopelessly lost. The Rangers would have run up a 30-point lead.

Couch Wook of Crosby who scouted the two teams, might just as well have stayed home for the little he learned from the two teams.

An example of the inconsistency of play by the locals is shown in the score at the close of each quarter. Brainerd lead throughout the game as follows: close of first, 8-4; second, 16-8; third, 27-12, and fourth, 29-21.

The team scored but two points in the last quarter to the visitors' nine. Such a record is not Brainerd's, for the locals have established a reputation of coming back in the second to play harder than ever.

There wasn't a resemblance of the team that played St. Cloud, Alexandria and Little Falls recently. The team, however, showed up well in free throws. Hautala alone got six of the total 11. The team scored nine field goals as against Staples' eight.

Only two of the players who started against Brainerd in the game at Staples started for the visitors last evening. They were Les Alden and Leo Phillips. The former was the outstanding man on the floor. He counted for five field goals and one free throw. His one-handed shot from the corner of the court at the start of the second quarter was sensationally effective.

Belch came into the game in the second quarter and sunk a basket within ten seconds.

Clausen, who has developed remarkably from the ranks of mediocrity at the start of the season to a position of invaluable service, held the team together and sunk two long shots from beyond the free throw circle.

Schuetz worked overtime. He was used in the preliminary game and was in the fray against Staples the majority of the time, substituting for Elmer Foster and Guin.

The team travels to Bemidji Friday where they meet Bemidji in a return game.

## JURY DECLARES IN FAVOR OF HACK WILSON

Chicago, Feb. 12.—(U.P.)—Hack Wilson, Chicago Cubs outfielder and the National league's leading strikeout victim, was justified when he climbed into a box seat to take a few pokes at a fan who suggested he bench himself to strengthen the team, a jury in superior court here ruled yesterday.

Edward Young, a milkman, was denied damages of \$20,000 he sought from the Cub star because of injuries Young alleged he received when Wilson planted a few blows on his jaw.

Young admitted at the hearing that he had a few soidels of beer before the game but claimed that for his "good natured razzing" he received a wrenched back and a cut lip.

## HIGH AVERAGES IN STRAIGHT AWAY LEAGUE

VAN ESSEN HAS TOTAL OF 8,671 PINS FOR 48 GAMES

WM. DEMMERS IS IN SECOND PLACE WITH 8,615 PINS

Van Essen maintains high average in the Straight Away league, having a total of 8,671 pins for 48 games with 180 plus 31 pins average. Demmers is in second place with 8,615 pins total for 48 games and an average of 179 plus 23 pins, or 56 pins total behind Van Essen. Elide still holds third place with 8,056 pins for 45 games, his average being 179 plus 1 pin or 20 pins behind Demmers' total. Hagberg with 177 plus 10 pins and Block with 177 plus 9 pins hold down fourth and fifth places.

High averages of the Handicap league are as follows:

Hawkinson, 176 plus.

The Study Club defeated Princess Candies last evening in two games. The Princess Candies, handicapped by the absence of one of its strong players, put up a game fight, winning the first game and keeping the Study Club on its toes all through the match.

Jack Alden rolled three good games of 190, 189 and 183 for a nice 562 total which was the highest total of the evening.

Hawkinson and Badaux made over scratch average. Oscar Nelson rolled high total for Princess Candies with 545. All on the team except Jerry Schrader hit over 500 and he was one pin under the mark.

Tonight will decide whether Study Club will perch at the top. Should Brainerd win three they will lead. They meet the Moose team.

Bye Clothing made a clean sweep of the games with Peterson Clothing last evening, the team hitting together in all three games. McKinley paved the way with 555, rolling 169, 187 and 199. Guin was high man for Peterson Clothing with 532. Goltz and Brandow also hit well for Byes and Hess and McGarry were over 500.

The Study Club defeated Princess Candies last evening in two games. The Princess Candies, handicapped by the absence of one of its strong players, put up a game fight, winning the first game and keeping the Study Club on its toes all through the match.

Jack Aiton rolled three good games of 190, 189 and 188 for a nice 562 total which was the highest total of the evening. Hawkinson and Badoaux made over scratch average. Oscar Nelson rolled high total for Princess Candies with 545. All on the team except Jerry Schrader hit over 500 and he was one pin under the mark.

Tonight will decide whether Study Club will perch at the top. Should Brainerd win three they will lead. They meet the Moose team.

Bye Clothing made a clean sweep of the games with Peterson Clothing last evening, the team hitting together in all three games. McKinley paved the way with 555, rolling 169, 187 and 199. Guin was high man for Peterson Clothing with 532. Goltz and Brandow also hit well for Eyes and Hess and McGarry were over 500.

## CUFFS OPPONENT LIKE ST. BERNARD DOES A POODLE

280-POUND HEAVY SWINGS RIGHT AT BUSTER MARTIN'S CHIN

TULSA, OKLAHOMA, POLICEMAN'S HEAD CRACKS FLOOR, OUT OVER MINUTE

By EDWARD W. LEWIS (United Press Staff Correspondent)

St. Louis, Feb. 12.—Primo Carnera, the big Italian boy who pushes them down, had his fourth American knockout to his credit today.

For all the world like a St. Bernard dog cuffs a poodle, the 280-pound heavyweight swung his right at Buster Martin's chin here last night 50 seconds after the start of the second round of their scheduled ten-round bout. The Tulsa, Okla., policeman's head cracked on the floor and he was out more than a minute.

A crowd of approximately 12,000 saw the "human bull" from Italy perform. The exhibit was brief and brought Carnera's total time in prize rings since he arrived in America to somewhere around eight minutes.

Oddly enough Martin went for Carnera at the bell, succeeding in tapping his opponent with several blows to the body that didn't jar the Colossus. A cuff or two from the European's oversize gloves and Buster slowed down and stayed that way.

They clinched as the second began and then Carnera quit toying. He swung his right at Martin's jaw and contacted. The Oklahoman was out cold, flat on his back and at the end of the count, Carnera helped carry him to his corner.

The Italian had a 72-pound weight advantage, Carnera weighing in at 281½ pounds against 209½ for Martin. Carnera's share of the gate was 35 per cent, approximating \$14,000 and Martin received \$1,350. King Tut, Minneapolis lightweight, was paid \$1,750 for knocking out Russ Leroy of Fargo, N. D., in the first round of their bout.

### Alphabetical History

The National Geographic society says that no true alphabet is in use today by a people who originated it. The English alphabet came directly from the Latin. The Romans borrowed it from the Greeks, the Greeks from the Phoenicians. It is not known whence the Phoenicians obtained their alphabet. It has been suggested that the 22 characters were adopted from the hieroglyphics of Egypt, the emblem characters of Babylon or the symbols used by the Hittites or Creteans. A theory widely accepted today is that the Phoenicians, being great traders and therefore familiar with the various systems of writing used by the nations dwelling around the Mediterranean, chose from them such symbols as they needed and thus compiled their own alphabet.

### Odd Viennese Customs

In Vienna the waiter who brings you your coffee—the aromatic beverage of which Vienna alone knows the secret—cannot accept payment for it. For that you must wait your turn with the "pay waiter," who probably has to deal with the reckoning of every guest in the cafe. Even your "tip-ping," though inexpensive, is not simple. The "pay waiter" receives the most largesse, the serving waiter a few groschen, and if you have had wine or beer, the diminutive piccolo who serves it must have his fistful of tiny copper coins amounting in value to a couple of cents.

## SPORTS KAYOES

By "HAPPY"

TERRIBLE—that is the only word which will properly describe the brand of ball the Bulldogs presented against Staples last evening. True enough, they showed enough Bulldog spirit to hang on long enough to win—but they looked like anything but a first class ball club.

The boys looked stale last evening. Each one of them appeared to be slow on his feet, and each one of them at some time during the game missed set-up shots. If those boys expect to get anywhere at all in tournament competition they will have to snap out of it—and snap out of it in a hurry.

The Little Falls Transcript asks this question, "Did the Little Falls Majesties win or lose to Brainerd Saturday night?" The score book says that Brainerd won, 24-23, but the players got together and talked it over Monday afternoon. They are sure that Tanner should have been credited with another field goal, which would put the Majesties ahead. All of which is interesting but nothing can be done about it.

Well, whether Brainerd or Little Falls won doesn't make any particular difference. The Little Falls fans who saw the game probably got their money's worth from all reports of the game. The players on both squads certainly got a good workout and enjoyed themselves, and those are the main points. A one-point victory for either team is nothing to crow about. If Little Falls won the game—"It's O. K. by us!"

The Alderman-Maghan Co. bowling team has won 14 out of the last 18 games they have rolled. It appears as though this might be a season's record at cracking the maples. Nice going, boys!

We are kind of glad that Lottie didn't see the "so-called" basketball game at the gym last evening. That game would have given her a real headache.

Little Falls continued to show a marked improvement last evening by defeating Foley high by a score of 37 to 21. The Falls team lost a game to Foley a week or so ago by a close score, but they had things pretty much their own way last night and were out in front 20-6 at the half.

That's the sad part of it—Crosby-Ironton continues at a fast pace—Little Falls looks like a revamped ball club and then Brainerd turns in a game like it did last evening. Again we say—TERRIBLE!

A Crosby-Ironton basketball fan airs his troubles in one of the Duluth newspapers today, and, although he wastes a lot of ink, he still doesn't explain how those maroon suits happened to be sent to the laundry at 4:30 P. M. on the day of the game—in other words he doesn't enlighten anyone on how the gentlemen's agreement was violated.

It may be well to state again that "Happy" isn't complaining because Brainerd was beaten at Crosby. Brainerd lost to Crosby-Ironton earlier in the season and had no kick coming because no rules of good sportsmanship were violated. And we realize that the C-I boys themselves were in no way responsible for that suit mixup the other evening.

Maybe there is another side to this question. If so, why don't some of the C-I fans send "Happy" a little letter of explanation?

Crosby-Ironton would have massacred Brainerd if the two teams had met last evening. The Kaschmen

looked like a bunch of second string eighth grader players.

We also feel that Staples is capable of better basketball than they displayed last night. If those boys had been hitting a little better it would have been just too bad for Coach Kasch's ball club. Alden, the Staples center, dropped in five field goals, but the rest of the team didn't play up to him.

GROOMING the prodigious Primo Carnera for a heavyweight title shot (and his skilled backers do not expect him to be ready for this until the Summer of 1931) has centered fan talk on the subject of what is known in ring gossip as "the dive" and "divers." The latter are the boys who "take it on the lug"—and more or less deliberately get knocked out—in order to build up a big gate attraction to such fearsome proportions that a championship bout is in order.

Ring dives are of vast variety; some are subtle and difficult to detect, but you can both see and hear the splash from the common class of course tankers. Sometimes the

announced "out" in one minute and 10 seconds of the first round. Fred Fulton, finest feller of 'em all, could hardly have excelled the finesse of that fadeout in his canvas-kissing prime. Incidentally, Peterson is managed by Fulton's former pilot!

Divers, incidentally, are classified by some as "wet" and "dry." The former go in with the intention of being knocked out; the latter have no such purpose, but they are so susceptible to K. O. punches that merely squaring off against a hard wallower is equivalent to posing on the brink of a tank. In the divers go—"wet" and "dry"—to make Roman holidays for the Carneras and the Firpos of boxing's ballyhoo.

# FARM STOCK

STRAWSTACK IS POOR PROTECTION

Hogs Huddle Up and Get Too Warm in Winter.

"Any port in a storm, of course. But a straw pile is one of the poorest of all possible poor ports for the hogs when a blizzard or a sudden cold spell hits the farm," says J. W. Wulcher, extension specialist in swine growing, for the Ohio State university.

"Letting the hogs burrow into a straw stack for shelter from the bad weather is better than leaving them to freeze to death, but not much better," says Wulcher. "The reason is that when hogs huddle into straw stacks they pile up in heaps, to keep warm they get too warm, and when they get out for feed or any other reason, are liable to pneumonia and other diseases.

"Even more important is the fact that such a refuge is highly unsanitary, and a hog is more susceptible to unsanitary conditions than most other farm animals. When hogs pile up under a straw stack their skins are caked with filth and get into bad condition, and their general health is affected.

"Much better have some sort of houses, either central sheds or individual houses. In extremely cold weather bank these houses with straw to keep out the wind and conserve the body heat of the hogs, but be sure to leave sufficient ventilation."

## Practical Plan to Feed Pigs in Creep or Pen

Fall pigs thrive much better if they start eating grain before they are weaned, according to W. L. Robinson of the Ohio Agricultural Experiment station. When this is done there is no noticeable setback at weaning time.

Pigs will start eating grain when three or four weeks old but to do this the pigs must be able to eat unmolested by the sows. This is easily accomplished by providing a creep which consists of a pen with an opening through which the pigs can go but which will hold the sows back.

A good ration for the young pigs is made of 64 parts of corn, 22.5 parts of ground oats, 8 parts of tankage, 4 parts of linseed oil meal, and 1.5 parts of minerals. If the pasture is short or no green feed is available add about 4 parts of ground alfalfa or clover hay, or the leaves of either hay.

## Alfalfa for Horses Fed in Balanced Ration Good

Alfalfa hay is good horse feed, according to A. O. Rhoad of the New York state college of agriculture, providing it is fed in a balanced ration. Corn and alfalfa make a balanced ration while oats, barley, peas and bran that are high in protein would provide too much protein to feed alfalfa as the only roughage. In this case there should be some other hay such as timothy with the alfalfa.

The firsts cutting is considered the best for horses. The usual recommendation of cutting alfalfa when one-third in bloom is best for cattle, but it is better for horses if cut when in the later stages of maturity, Rhoad states.

- Docking lambs up to two months of age is practiced.
- Keep pregnant mares out of corn stalk fields. Provide them with plenty of pure, clean water.
- Normally one-third of the spring pigs die before they are ten weeks old, or of weaning age.

- Feed the mare generously on sound whole oats, bran and mixed clover, or timothy hay. Avoid moldy hay or silage, damaged grain, woody, weathered fodder, dusty or rusty straw, or hay containing ergot.
- The mare in foal should be worked lightly or abundantly exercised every day. Exercise is absolutely necessary. She should occupy a roomy, clean, well lighted, and perfectly ventilated box stall.
- Long-legged, narrow-backed hogs do not have economical feeding quality, and for that reason have been forced into the discard.
- The brood sows which realize the greatest profits are those which are capable of raising two large litters of strong, healthy pigs each year.
- The ideal time for docking is when the lambs are ten days or two weeks old. At this age the job is simple and can be done with little risk of serious bleeding and little pain to the lamb.

## Indian Ruler Famous for Astronomical Study

There lived in India, in the Seventeenth century, a ruler known as Maharajah Jai Singh II, and being keenly interested in astronomy he evolved a series of structures which, though not now used for practical purposes, constitute the most unique astronomical instruments in existence. He appears to have collected all kinds of astronomical books, and sent some workers to foreign countries to gather information. Having determined the kind of instruments required on which to make the necessary recording of the movements of the heavenly bodies, he selected five places in India as the centers in which the observations should be taken. The first he built at Delhi, and then others in Jaipur, Ujjain, Benares, and Mathura. The observatories in Delhi and Jaipur have been carefully restored. In addition to a number of metal instruments he erected large masonry instruments, some of them as high as 90 feet. Very careful records were made of the observations of his staff of workers, and modern astronomers have expressed surprise at the valuable information thus collected. The ruler responsible for these interesting instruments died in 1743 and his wives, concubines and science expired with him on his funeral pyre.

## Falls of Niagara as Pictured by Hennepin

Father Louis Hennepin saw Niagara when he went West to the upper Mississippi with La Salle's expedition in 1679. He had a poor eye for distances, for in successive narratives he measures Niagara's height as 500 and 600 feet, instead of its maximum of 162, but he had a flair for vivid word pictures:

"Betwixt the Lake Ontario and Erie there is a vast and prodigious cadence of water which falls down after a surprising and astonishing manner, in-furnish that the universe does not afford its parallel. 'Tis true Italy and Switzerland boast of some such things, but we may well say they are but sorry patterns when compared to this of which we now speak. . . . It (the River Niagara) is so rapid above the descent that it violently hurries down the wild beasts while endeavoring to pass it to feed on the other side, they not being able to withstand the force of its current, which inevitably casts them down headlong above 600 foot. . . ."—New York Times.

"In that case, my dear," he said, "I will pull them all out." And he did so. Shortly afterwards his second wife came to him complaining that now he had only black hairs on his head, she looked, by contrast, a horribly old woman. "Don't worry, my dear. I will pull them out," he said soothingly. But when he had pulled out all the gray and all the black hairs the mandarin was completely bald. And neither of his wives would have any more to do with him.

Is the gasoline you use as advanced as the car you drive?

No matter what price you pay for a car today, you get a car that eliminates all past achievements of the maker—a car built to new high standards of beauty and performance. But remember this. Unless the gasoline you use is as advanced as the car you drive, your car can give only a fraction of the performance the maker built into it. Gasoline, too, can be "out-of-date."

One gasoline—Phillips 66—has kept pace with the striking progress in motor car manufacture. It is perfectly geared to the requirements of the modern high-speed, high-compression motor.

Its volatility is scientifically controlled to fit season and climate. Results? Quick starting, regardless of weather! Flashy pick-up. Able-bodied power. Long mileage. Year 'round sweet performance. Fill up with Phillips 66, or Phillips 66 Ethyl.

## On the Funny Side

### THE DIFFERENCE

"What's the trouble?" asked Jones, when one of his most popular jokes failed to score a chuckle.

"Let me see," said the solemn one, thoughtfully. "I've got to buy some flowers, some chocolates, and the theater tickets, and—"

"Doing mental arithmetic?" asked his friend.

"Sentimental arithmetic," sighed the young man sadly.

### BAD LUCK AND WORSE

George—"You heard of Jim's rotten luck? He was nearly drowned, but a girl rescued him." Harry—"Yes; but he had even worse luck later—she married him."

### Stay Down

"Up like rockets, down like sticks," the timid fellows bawl. They get themselves in such a fix they never rise at all.

### Real Worry

Blinks—It says here some scientist predicts a group of stars headed toward the earth at the rate of 200 miles a second will crash into it in about a million years.

Jinks—That doesn't worry me. What scares me stiff is seeing a motor car headed toward me at the rate of forty miles an hour that will arrive in about one second.—Cincinnati Enquirer.

## Indian Ruler Famous for Astronomical Study

There lived in India, in the Seventeenth century, a ruler known as Maharajah Jai Singh II, and being keenly interested in astronomy he evolved a series of structures which, though not now used for practical purposes, constitute the most unique astronomical instruments in existence. He appears to have collected all kinds of astronomical books, and sent some workers to foreign countries to gather information. Having determined the kind of instruments required on which to make the necessary recording of the movements of the heavenly bodies, he selected five places in India as the centers in which the observations should be taken. The first he built at Delhi, and then others in Jaipur, Ujjain, Benares, and Mathura. The observatories in Delhi and Jaipur have been carefully restored. In addition to a number of metal instruments he erected large masonry instruments, some of them as high as 90 feet. Very careful records were made of the observations of his staff of workers, and modern astronomers have expressed surprise at the valuable information thus collected. The ruler responsible for these interesting instruments died in 1743 and his wives, concubines and science expired with him on his funeral pyre.

## Falls of Niagara as Pictured by Hennepin

Father Louis Hennepin saw Niagara when he went West to the upper Mississippi with La Salle's expedition in 1679. He had a poor eye for distances, for in successive narratives he measures Niagara's height as 500 and 600 feet, instead of its maximum of 162, but he had a flair for vivid word pictures:

"Betwixt the Lake Ontario and Erie there is a vast and prodigious cadence of water which falls down after a surprising and astonishing manner, in form such that the universe does not afford its parallel. 'Tis true Italy and Switzerland boast of some such things, but we may well say they are but sorry patterns when compared to this of which we now speak. . . . It (the River Niagara) is so rapid above the descent that it violently hurries down the wild beasts while endeavoring to pass it to feed on the other side, they not being able to withstand the force of its current, which inevitably casts them down headlong above 600 foot. . . ."—New York Times.

### From Bad to Worse

A rich old Chinese mandarin had two wives. Said the first to him one day: "I wish you had not so many gray hairs. People jeer at me and call me an old man's darling." "In that case, my dear," he said, "I will pull them all out." And he did so. Shortly afterwards his second wife came to him complaining that now he had only black hairs on his head, she looked, by contrast, a horribly old woman. "Don't worry, my dear. I will pull them out," he said soothingly. But when he had pulled out all the gray and all the black hairs the mandarin was completely bald. And neither of his wives would have any more to do with him.

### Chalk That Up

Pat O'Hara and Mike Murphy (who strangely enough, were Irishmen) had taken jobs at a colliery. Pat one morning broke his shovel when he was down in the mine. He was too lazy, however, to take it to the surface with him, so he left it for his friend, writing on it in chalk:

"Take my shovel out, Mike, I've forgotten it."

But friend Michael knew Pat of old, and refused to be caught by such a trick. So he rubbed the message off and substituted one of his own:

"Take it out yourself. I've never seen it."—London Answers.

## Is the gasoline you use as advanced as the car you drive?

No matter what price you pay for a car today, you get a car that climaxes all past achievements of the maker—a car built to new high standards of beauty and performance. But remember this. Unless the gasoline you use is as advanced as the car you drive, your car can give only a fraction of the performance the maker built into it. Gasoline, too, can be "out-of-date."

One gasoline—Phillips 66—has

kept pace with the striking progress in motor car manufacture. It is perfectly geared to the requirements of the modern high-speed, high-compression motor.

Its volatility is scientifically controlled to fit season and climate. Results? Quick starting, regardless of weather! Flashy pick-up. Able-bodied power. Long mileage. Year 'round sweet performance. Fill up with Phillips 66, or Phillips 66 Ethyl.

# Phillips 66

THE GASOLINE OF CONTROLLED VOLATILITY

WHEN THE THERMOMETER GOES DOWN THE VOLATILITY GOES UP. Gasoline must vaporize before it can be fired in the cylinders of your motor. Volatility refers to the ability of gasoline to vaporize. With volatility controlled, Phillips 66 vaporizes as quickly in cold as in warm weather.

Mrs. Margaret Setula, 85, Passed Away Yesterday at Home of Daughter

### IN COUNTY 40 YEARS

Funeral to be Conducted From 723 13th Street and Finnish Lutheran Church

Mrs. Margaret Setula passed away at 8:30 a. m. Tuesday, February 11 at the home of her daughter, Mrs. F. M. Milloch, 723 13th street S. E. after an illness of two weeks. Old age and heart trouble contributed to her death. She was 85 years old and proclaimed the oldest resident of Brainerd.

"Grandma" Setula as she was mostly known by her friends was born in Finland, July 26, 1844. She has been a resident of this county for the past 40 years. Her husband predeceased her June 7, 1924. She has been an active member of the Finnish Lutheran National church of Brainerd.

She leaves to mourn her loss, one daughter, Mrs. F. M. Milloch of Brainerd, three sons, Jacob of Brainerd, John of Ironwood, Mich., and Michael of St. Paul, Minn., 21 grandchildren and eight great grandchildren.

Funeral rites will be conducted Friday afternoon at 1:30 o'clock from the residence at 723 13th street and from the Finnish Lutheran National church at 2 o'clock, Rev. Niemi officiating. Interment will be at Evergreen cemetery.

## SHOOTS VETERAN WOLF 2 RODS AWAY

O. W. Van Doren Kills Wolf With Noose Around Neck, Buckshot Pellets in Body

Nature turned against a wolf of many experiences and old age yesterday and the result was another wolf killed in Crow Wing county.

O. W. Van Doren of Lake Edward shot the wolf from behind a tree with a rifle from a distance of two rods. The wolf did not know he was there as the wind blew the man's scent in the opposite direction. The veteran wolf had a wire noose around its neck deeply imbedded in fur while buckshot pellets had been lodged in its skin.

Others who have collected bounties in the past week are: S. J. Berry, Center township; Cyril Wheeler, two; Long Lake; Leo Litke, Platte Lake; D. G. Peterson, Brainerd; C. M. Taylor, Emily; George Garland, Deerwood.

### ROOSEVELT

The Roosevelt Home Management club met at the home of Mrs. Louis Schellin Tuesday, Feb. 4. The meeting was called to order by substitute chairman, Miss Helen Davis after which roll was called. All members present but two. One visitor was in attendance. The meeting was then turned over to the leaders, Mrs. Ernest Brand and Mrs. Henry Mangold, who talked on various articles of a well equipped kitchen and the right kind of tools such as good knives, egg beaters and many other articles. Test meals were prepared and talks given on suggestions for cleaning and care of equipment. Dinner was served at 12:30 o'clock. The meeting was again called to order at 1:15 P. M. The next meeting will be March 4 at Mrs. Louis Schellin's at Pine Center.

Some of the Modern Woodmen members spent the evening at the home of Mr. and Mrs. Will Marohn. Those present were Mr. and Mrs. Clay-

ton Dykeman, Mr. and Mrs. Ernest Brand, Mr. Wakeman, Floyd and Earl Coffield. The evening was spent in playing 500 and a nice lunch was served by the hostess.

Mrs. Coffield, Earl and Anna Moe motored to Brainerd Friday and also visited at the home of Conrad Isle.

Louis Schellin made a business trip to Brainerd Tuesday.

Mrs. Thad Cooley visited at the home of Mrs. William Fahneshik Wednesday.

Miss Marjorie Cooley is visiting at Woodrow with friends for a few days. Irvin Chrysler called at the home of Arch Coffield Thursday.

Will Fahneshik is busy hauling some logs to the saw mill.

Evelyn Brand is on the sick list this week.

Clause Johnson gave a card party at Ernest Brand's hall. The evening was spent in playing 500.

Lorna Cooley spent the week end at the home of her mother, Mrs. H. Mangold.

Sunday school Sunday was quite well attended considering the bad

snow storm. It looked like a real blizzard for a while.

## OBSERVE LINCOLN'S BIRTH

Schools and Banks Observe Day as Holiday; Flags Fly on Buildings

Flags flew on public buildings in commemoration of the birth of Abraham Lincoln, martyred president while schools and banks throughout the city observed the day as an official holiday.

Patriotic programs were to be held this evening in various parts of the city.

## SHOOTS VETERAN WOLF 2 RODS AWAY

O. W. Van Doren Kills Wolf With Noose Around Neck, Buckshot Pellets in Body

Nature turned against a wolf of many experiences and old age yesterday and the result was another wolf killed in Crow Wing county.

O. W. Van Doren of Lake Edward shot the wolf from behind a tree with a rifle from a distance of two rods. The wolf did not know he was there as the wind blew the man's scent in the opposite direction. The veteran wolf had a wire noose around its neck deeply imbedded in fur while buckshot pellets had been lodged in its skin.

Others who have collected bounties in the past week are: S. J. Berry, Center township; Cyril Wheeler, two; Long Lake; Leo Litke, Platte Lake; D. G. Peterson, Brainerd; C. M. Taylor, Emily; George Garland, Deerwood.

## ROOSEVELT

The Roosevelt Home Management club met at the home of Mrs. Louis Schellin Tuesday, Feb. 4. The meeting was called to order by substitute chairman, Miss Helen Davis after which roll was called. All members present but two. One visitor was in attendance. The meeting was then turned over to the leaders, Mrs. Ernest Brand and Mrs. Henry Mangold, who talked on various articles of a well equipped kitchen and the right kind of tools such as good knives, egg beaters and many other articles. Test meals were prepared and talks given on suggestions for cleaning and care of equipment. Dinner was served at 12:30 o'clock. The meeting was again called to order at 1:15 P. M. The next meeting will be March 4 at Mrs. Louis Schellin's at Pine Center.

Will Fahneschik was the business caller in Brainerd Saturday.

Some of the Modern Woodmen members spent the evening at the home of Mr. and Mrs. Will Marohn. Those present were Mr. and Mrs. Clay-

ton Dykeman, Mr. and Mrs. Ernest Brand, Mr. Wakeman, Floyd and Earl Coffield. The evening was spent in playing 500 and a nice lunch was served by the hostess.

Mrs. Coffield, Earl and Anna Moe motored to Brainerd Friday and also visited at the home of Conrad Isle.

Louis Schellin made a business trip to Brainerd Tuesday.

Mrs. Thad Cooley visited at the home of Mrs. William Fahneschik Wednesday.

Miss Marjorie Cooley is visiting at Woodrow with friends for a few days. Irvin Chrysler called at the home of Arch Coffield Thursday.

Will Fahneschik is busy hauling some logs to the saw mill.

Evenly Brand is on the sick list this week.

Claude Johnson gave a card party at Ernest Brand's hall. The evening was spent in playing 500.

Lorna Cooley spent the week end at the home of her mother, Mrs. H. Mangold.

Sunday school Sunday was quite well attended considering the bad

snow storm. It looked like a real blizzard for a while.

# "MASTER of MONEY"

BY ROY VICKERS

WHAT HAS GONE BEFORE.

ALAN BRENNAWAY returns to New York after an absence of seven years in Mexico, where he made a fortune. Going to the dingy hotel he started from, his thoughts flash to Shirley Dane, society girl whom he loves. He visits Shirley and finds her more sympathetic and understanding than before. She tells him her father left her \$200,000, which is in the hands of Roger Kelton. Later, Alan accompanies Shirley and her aunt, Mrs. Sibley, to a party. He meets a Mr. Cynax, financier. Alan expresses his distrust of Cynax. There is "talk" about Roger Kelton, and when he does not arrive, Mrs. Sibley is concerned for Shirley's sake. Alan wonders why it should distress Shirley.

NOW GO ON WITH THE STORY.

CHAPTER V.

"I'll tell you what I did to-day, if you really want to hear."

"I began with riding—that's an absolute necessity. Then I had breakfast, changed, went to a gym, changed and had a fencing lesson, changed back again and went to my dressmaker, who is evolving my dress for the Middle Ages ball. She's a bit of a genius at fancy dress. So am I. Then I hurried back here to change again and we lunched with Bishop Farley."

"Then I came back here and had the fun of seeing you. Then tonight there were the Westburys—and you can see I'm not a bit done up. Do you think I could do all that on cocktails and cigarettes?"

"Good Lord!" exclaimed Alan. "You work as hard at this game of going round and meeting people—and being met—as if you had to get another fifteen thousand a year out of it."

"I may have to, one day," she said, half to herself.

He ignored that. She was sitting in an armchair opposite him, her head against dark velvet, and once again there flashed up that memory of her face outlined against a background of darkness. He knew the memory was stampeding him—let himself be stampeded.

"Shirley..." he said hoarsely. She looked up, still half-bled by some long thought.

"What is it, Alan?"

"I think you know what it is, Shirley."

Startled color rose in her face. She moved jerkily, then sat still.

"I think you know what I am trying to say, Shirley. Women—girls—girls of twenty, even—are pretty good at telling what a man is thinking about without his putting it into words. I did not tell you that day seven years ago at the Felton that I loved you but you knew it."

"I did not tell you that all these years I've been thinking of you sitting there in the lobby of that miserable hotel, but I think you know it. I think you knew the moment we met this afternoon that I intended to ask you, as I'm asking you now, to marry me."

"I didn't," she cried. "I've always loved you in a way—but not the marrying way. Oh, Alan, I'm so dreadfully sorry."

He sat rigid for a moment; then took a cigarette. He discovered that it could be quite a complicated process to get a cigarette from the box to his lips. It was a minute or more before he spoke.

"I'm a persistent kind of devil. I shall treat your refusal with the utmost reverence, but at the same time I shall wait for the moment when I can try again—and again."

"I did not tell you that day that I loved you, but you knew it."

"I'm sorry. That was an impertinence. But—"

"No, it wasn't an impertinence. It was quite logical. From the moment I knew what a lot it costs to enjoy life as I intend always to enjoy it, I realized that I should do best to marry money—big money. Aunt Marion always wanted me to, of course. But, as it happens, although this man is of what the French call 'the high world,' he has next to nothing. And I have only my fifteen thousand. That won't get us anywhere at all."

"Then for his sake you'll give up—"

"I shan't give up anything, I hope. We shall be clever."

"I don't follow," Alan said wretchedly.

"We shall be with the right people at the right time, as Daddy was." She smiled brilliantly. "It's awfully simple, dear old Alan, danger of just that—and what an appalling mess she would have been in. Apart from any other consideration, Alan would make an impossible husband. How dreadful to be loved for your potentialities! It was funny that he should have the effect on her of making her feel small and unimportant."

Was she? It did not matter after all.

"I must go to bed!" she exclaimed. Abruptly her mood changed and she forgot Alan. She went to her bedroom and began the long, careful process of undressing. At last she was in bed.

"What can that old spider Cynax have meant about 'talk' about Roger? How could there be any talk about Roger?" She smiled, and, smiling, sank into sleep.

## FASHIONABLENESS OF HIP FLASK IS THREATENED IN N. Y.

New York, Feb. 12.—(U.P.)—The fashionable of the hip flask in New York's pleasure haunts has been threatened.

Prohibition administrator for this district, Maurice Campbell, announced that in the future individual possessors of liquor in any public place would be arrested and prosecuted.

While he was issuing this edict against the hip flask totes, some of his agents participated in a raid on the Cornish Arms, a hotel, and Cavanaugh's, a popular mid-town restaurant. The Cornish Arms is the second hotel raided by Campbell's men in the past few days, the Hotel Manager, a 2,000-room hostelry, being the first victim of the new dry offensive.

Twenty arrests were made in the two raids and, according to Campbell, liquor was seized in negligible quantities.

## BANKRUPT'S PETITION FOR DISCHARGE AND ORDER OF NOTICE THEREON

In the District Court of the United States for the Fifth Division, District of Minnesota.

In the Matter of Isaac Frazer, Bankrupt.

No. 4192 In Bankruptcy.

To the Honorable William A. Cant, Judge of the District Court of the United States for the District of Minnesota.

Isaac Frazer, of Trommald, in the County of Crow Wing, and State of Minnesota, in said District, respectfully represents that on the eleventh day of January, 1936, last past, he was duly adjudged bankrupt under the acts of Congress relating to bankruptcy; that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said acts and the orders of the court touching his bankruptcy.

WHEREFORE, he prays that he may be decreed by the court to have a full discharge from all debts provable against his estate under said bankruptcy acts, except such debts as are excepted by law from such discharge.

Dated this 6th day of January, A. D. 1936.

ISAAC FRAZER, Bankrupt.

### Order of Notice

District of Minnesota, ss: On this 5th day of February, A. D. 1936, on reading the foregoing Petition for Discharge of the above-named Bankrupt, it is—

ORDERED BY THE COURT that a hearing be had upon the same on the 10th day of April, A. D. 1936, before said Court, at Duluth, in said District, at ten o'clock in the forenoon; and that notice thereof be published for The Brainerd Dispatch, a newspaper printed in said District, and that all known creditors and other persons in interest may appear at the said time and place and show cause, if any they have, why the prayer of the said petitioner should not be granted.

AND IT IS FURTHER ORDERED BY THE COURT that the Clerk shall send by mail to all known creditors copies of said petition and this order, addressed to them at their places of residence as stated.

WITNESS the Honorable William A. Cant, Judge of the said court, and the seal thereof, at Duluth, in said district, on the 5th day of February, A. D. 1936.

"Good Lord!" exclaimed Alan. "You work as hard at this game of going round and meeting people—and being met—as if you had to get another fifteen thousand a year out of it."

"I may have to, one day," she said, half to herself.

He ignored that. She was sitting in an armchair opposite him, her head against dark velvet, and once again there flashed up that memory of her face outlined against a background of darkness. He knew the memory was stampeding him—let himself be stampeded.

"Shirley..." he said hoarsely. She looked up, still half-held by some long thought.

"What is it, Alan?"

"I think you know what it is, Shirley."

Startled color rose in her face. She moved jerkily, then sat still.

"I think you know what I am trying to say, Shirley. Women—girls—girls of twenty, even—are pretty good at telling what a man is thinking about without his putting it into words. I did not tell you that day seven years ago at the Felton that I loved you but you knew it."

"I did not tell you that all these years I've been thinking of you sitting there in the lobby of that miserable hotel, but I think you know it. I think you knew the moment we met this afternoon that I intended to ask you, as I'm asking you now, to marry me."

"I didn't," she cried. "I've always loved you in a way—but not the marrying way. Oh, Alan, I'm so dreadfully sorry."

He sat rigid for a moment; then took a cigarette. He discovered that it could be quite a complicated process to get a cigarette from the box to his lips. It was a minute or more before he spoke.

"I'm a persistent kind of devil. I shall treat your refusal with the utmost reverence, but at the same time I shall wait for the moment when I can try again—and again."

"I did not tell you that day that I loved you, but you knew it."

"I'm sorry. That was an impertinence. But—"

"No, it wasn't an impertinence. It was quite logical. From the moment I knew what a lot it costs to enjoy life as I intend always to enjoy it, I realized that I should do best to marry money—big money. Aunt Marion always wanted me to, of course. But, as it happens, although this man is of what the French call 'the high world,' he has next to nothing. And I have only my fifteen thousand. That won't get us anywhere at all."

"Then for his sake you'll give up—"

"I shan't give up anything, I hope. We shall be clever."

"I don't follow," Alan said wretchedly.

"We shall be with the right people at the right time, as Daddy was." She smiled brilliantly. "It's awfully simple, dear old Alan."

danger of just that—and what an appalling mess she would have been in. Apart from any other consideration, Alan would make an impossible husband. How dreadful to be loved for your potentialities! It was funny that he should have the effect on her of making her feel small and unimportant.

Was she? It did not matter after all.

"I must go to bed!" she exclaimed. Abruptly her mood changed and she forgot Alan. She went to her bedroom and began the long, careful process of undressing. At last she was in bed.

"What can that old spider Cynax have meant about 'talk' about Roger? How could there be any talk about Roger?" She smiled, and, smiling, sank into sleep.

### Lindy Expert Camp Cook

The above is a scene of Col. Charles Lindbergh's camp in the Tehachapi Mountains. It is located at an altitude of more than 6,000 feet, near Sandberg, Cal. People at the camp say the Colonel is a good cook and knows his bacon, and is as good at frying as he is flying. Lindy is shown in his capacity as camp cook. ### FASHIONABLENESS OF HIP FLASK IS THREATENED IN N. Y.

New York, Feb. 12.—(U.P.)—The fashionable-ness of the hip flask in New York's pleasure haunts has been threatened.

Prohibition administrator for this district, Maurice Campbell, announced that in the future individual possessors of liquor in any public place would be arrested and prosecuted.

While he was issuing this edict against the hip flask toters, some of his agents participated in a raid on the Cornish Arms, a hotel, and Cavanaugh's, a popular mid-town restaurant. The Cornish Arms is the second hotel raided by Campbell's men in the past few days.

The Hotel Manager, a 2,000-room hostelry, being the first victim of the new dry offensive.

Twenty arrests were made in the two raids and, according to Campbell, liquor was seized in negligible quantities.

#### 10 Cents a Fish

The government pays a bounty of 10 cents for each fish caught of any species which preys upon salmon in certain districts of Alaska.

### BANKRUPT'S PETITION FOR DISCHARGE AND ORDER OF NOTICE THEREON

In the District Court of the United States for the Fifth Division, District of Minnesota.

Matter of Isaac Frazer, Bankrupt, No. 4192 in Bankruptcy.

To the Honorable William A. Cant, Judge of the District Court of the United States for the District of Minnesota:

Isaac Frazer, of Trommald, in the County of Crow Wing, and State of Minnesota, in said District, respectfully represents that on the eleventh day of January, 1929, last past, he was duly adjudged bankrupt under the acts of Congress relating to bankruptcy; that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said acts and the orders of the court touching his bankruptcy.

WHEREFORE, he prays that he may be decreed by the court to have a full discharge from all debts provable against his estate under said bankruptcy acts, except such debts as are excepted by law from such discharge.

Dated this 6th day of January, A. D. 1930.

ISAAC FRAZER, Bankrupt.

#### Order of Notice

District of Minnesota, ss.: On this 5th day of February, A. D. 1930, on reading the foregoing Petition for Discharge of the above-named Bankrupt, it is

ORDERED BY THE COURT, that a hearing be had upon the same on the 5th day of April, A. D. 1930, before said Court, at Duluth, in said District, at ten o'clock in the forenoon; and that notice thereof be published in The Brainerd Dispatch, a newspaper printed in said District, and that all known creditors and other persons in interest may appear at the said time and place and show cause, if any they have, why the prayer of the said petitioner should not be granted.

AND IT IS FURTHER ORDERED BY THE COURT, that the Clerk shall send by mail to all known creditors copies of said petition and this order, addressed to them at their places of residence as stated.

WITNESS the Honorable William A. Cant, Judge of the said court, and the seal thereof, at Duluth, in said District, on the 5th day of February, A. D. 1930.

(Seal of the Court) JOEL M. DICKEY, Clerk.

Speedy Relief for Sore Throat

This Doctor's Prescription Requires No Gargling

No longer is it necessary to gargle and choke with nasty tasting medicines to relieve sore throat. Now you can get almost instant relief with one swallow of a doctor's prescription. This prescription was refilled so often and became so popular that the drug-choker who originally filled it decided to put it up under the name Thoxine and make it available to everyone.

The remarkable thing about Thoxine is that it relieves almost instantly, yet contains nothing harmful. It is pleasant tasting, and safe for the whole family, and is guaranteed to relieve sore throats or coughs in 15 minutes or money back. Just ask for Thoxine, 35c, 60c and \$1.00. Sold by Skauge's and all other good drug stores.
